SECRETARÍA JUNTA ADMINISTRATIVA

2020-21 Certificación Número 65

YO, **RAÚL RIVERA GONZÁLEZ**, Secretario Ejecutivo de la Junta Administrativa del Recinto de Ciencias Médicas de la Universidad de Puerto Rico, **CERTIFICO**:

Que la Junta Administrativa en reunión ordinaria celebrada el **martes, 20 de abril de 2021**, tuvo ante su consideración la **propuesta de cambio de nombre del Programa de DNS a PhD de la Escuela de Enfermería**, presentado por el Decanato de Asuntos Académicos. Luego de amplia discusión de rigor, la Junta Administrativa, **ACORDÓ**:

ENDOSAR el cambio de nombre del Programa de DNS a PhD de la Escuela de Enfermería, según presentado por el Decanato de Asuntos Académicos del Recinto de Ciencias Médicas.

COPIA de la propuesta presentada se hace formar parte de esta certificación.

Y para que así conste, para conocimiento del personal y de las autoridades universitarias que corresponde, expido esta Certificación bajo el sello del Recinto de Ciencias Médicas de la Universidad de Puerto Rico, hoy veintiuno de abril del año dos mil veintiuno.

Lues

DECANATO DE ASUNTOS ACADÉMICOS 

DEANSHIP FOR ACADEMIC AFFAIRS

7 de abril de 2021

Dr. Raúl Rivera González Secretario Ejecutivo Junta Administrativa Recinto de Ciencias Médicas

Estimado doctor Rivera:

En conformidad con el Artículo 7. A. 2 de la Certificación JG #32, 2020-2021, Reglamento para la creación de programas académicos nuevos de la Universidad de Puerto Rico, accedo el trámite del documento de propuesta para el establecimiento del nuevo programa académico de Doctor en Filosofía en Enfermería. El grado para ofrecer será el de Doctor en Filosofía en Enfermería. Este programa representa una transición del programa existente y acreditado de Doctor en Ciencias de Enfermería (DNS) a un doctorado en filosofía en enfermería a tenor con las tendencias en la disciplina.

De acuerdo con el análisis efectuado en el Decanato de Asuntos Académicos (DAA) bajo la nueva Certificación 32, el documento cumple con las normas establecidas en este reglamento y los requisitos de licencia y acreditación. Por tal razón, el DAA endosó la propuesta y accede su envío al Senado Académico para su correspondiente análisis, a la misma vez que accede su envío a la Junta Administrativa.

El Artículo 7. A. 4. de la Certificación 64 (p. 4), dispone que:

"La Junta Administrativa verificará la petición presupuestaria de la propuesta con atención a su impacto fiscal e identificará los recursos necesarios propios de su recinto o unidad. La Junta Administrativa emitirá sus recomendaciones favorablemente o no a la propuesta mediante Certificación a esos fines, dentro de los treinta (30) días naturales o consecutivos, contados a partir de la fecha de recibo de la propuesta. Pasado los treinta (30) días naturales o consecutivos sin haber ningún tipo de acción de parte de la Junta Administrativa, se entenderá como un endoso."

Agradeceré el análisis de rigor para continuar con el debido trámite a la Administración Central.

Cordialmente.

osé Hawayek Alemañy, MD Decano

4 de mayo de 2021

Dr. Raúl Rivera González Secretario Ejecutivo Junta Administrativa

Estimado doctor Rivera:

La Oficina de Presupuesto recibió para análisis la Propuesta para cambio de nombre del Programa Doctoral de Enfermería de DNS a PhD, según Certificación 067, 2020-2021, del Senado Académico del Recinto de Ciencias Médicas.

Luego del análisis correspondiente, determinamos que dicha propuesta es autofinanciable.

Se acompaña informe de presupuesto para la acción correspondiente.

Atentamente,

Mildred Martínez Rivera, MBA Directora

### PRESUPUESTO DE PROPUESTAS DE PROGRAMAS ACADEMICOS PROGRAMA DOCTOR EN FILOSOFIA EN ENFERMERIA

### PARTE I. NARRATIVA

- a. Título del Programa Programa de Doctor en Filosofía en Enfermería
- b. Decanato y Departamento al cual o estará adscrito el programa Enfermería Departamento Graduado

### c. Director

Carmen Mabel Arroyo Novoa, RN, PhD, MSN

### d. Descripción breve del programa

El doctorado en filosofía es un programa enfocado en la investigación diseñado para preparar científicos en enfermería con habilidades de investigación. El graduado será capaz de desarrollar y ampliar el cuerpo de conocimientos de enfermería, y podrá construir y utilizar modelos teóricos y prácticos en la prestación de servicios de salud, para influir en el estado de salud de las personas, mejorar los resultados y la calidad de vida y promover las políticas públicas para abordar los problemas de salud en el sistema de salud en Puerto Rico.

### I. Introduction

The School of Nursing (SON) of the University of Puerto Rico (UPR), Medical Sciences Campus (MSC) is the first and only school of nursing in Puerto Rico that offers a doctoral program. Our Doctor of Nursing Science (DNS) Program started in August 2012. This Program, a research-focused doctoral program, prepares students to pursue intellectual inquiry and conduct research to extend knowledge and improve practice. We have contributed to preparing a cadre of nurse scientists at the doctoral level, muchly needed in Puerto Rico.

Throughout these years where we have been continuously offering our DNS Program, we have worked to fulfill the purposes for which the program was created: (1) be leaders in nursing research- our Program is the pioneer and continues to be the only nursing doctorate program in Puerto Rico- with students enrolled from different parts of the Island, (2) prepare nursing professionals at the doctoral level in response to the need for higher education nursing institutions that require this level for education and research; we have graduated eight students who are working at universities in nursing programs, and (3) the need to advance the discipline in Puerto Rico through the generation of new knowledge; these eight graduates, as part of their dissertation, developed research studies that generated new knowledge in nursing. Their study results have been presented in different research forums, and some of these published as abstracts. The dissertation topics have been related to our faculty's research lines: violence, diabetes, and pain. We currently have eight students in different research phases, such as proposal development or data collection on other topics such as sleep, delirium, and genetic diseases.

In addition to these outcomes, the DNS Program has challenges that have led the faculty to carry out a reflective evaluation of the curriculum. The Program has not met the proposed retention and graduation rates. We have had attrition due to illness and changes in professional interests of the students. Additionally, three students left the program after Hurricane María. Even though most students have not graduated in the minimum time, they have done so before the maximum time. The greatest challenge is that, to meet their financial needs, all students have full-time employment, which directly impacts their academic progress.

To meet the initial goal of the Program- maintain an academic program of excellence at the doctoral level to prepare nursing leaders with the capability of generating new scientific knowledge- the faculty have proposed two academic significant changes to be effective for the academic year 2021- 2022: (1) change the name of the academic degree from DNS to PhD and (2) increase program of study time by one year (4-years) and three minor or institutional academic changes (1) change program to a hybrid modality (face-to-face and distance), (2) course

variations: eliminate bioethics course, offer biostatistics courses with ENFE classification, add a third dissertation course, changes in curriculum sequence, pre-requisites course, and program total credit number, and (3) change in admission criteria.

### A. Name of the Program and Academic Degree

### **Current Status**

The academic degree awarded after completion of our Doctoral Program is Doctor of Nursing Sciences (DNS).

### **Requested Change**

We requested the change of name of academic degree from Doctor of Nursing Science (DNS) to Doctor of Philosophy (PhD).

### Justification

The SON of the UPR-MSC is the oldest academic institution for nursing in PR and has a mission to promote nursing education, research, and service through its academic programs. In 2012, the SON was the first higher academic institution in PR to establish a doctorate degree specifically for nursing research. Research is fundamental for advancing nursing knowledge and the improvement of nursing science and evidence-based practice in PR. Changes in nursing and health status of people in PR during the last decade require academic transformations in higher education institutions to do research, and consequently, evidence-based practice, critical components of every nursing curriculum in PR. Our SON is committed to providing quality scientist professionals who can lead the charge in nursing for generating new knowledge for the health needs of the people in PR.

In the United States, for nurses seeking doctoral education, there has been a change from pursuing a doctoral degree in disciplines outside of nursing, like the Doctor of Education (EdD), to establishing doctoral programs focused on nursing (Reid Ponte & Nicholas, 2015). Since 1963, there has been an increase in doctoral nursing programs, creating multiple degree titles (Doctor of Nursing Science [DNSc or DNS], Doctor of Science in Nursing [DSN], Nursing Doctor [ND], and more recently, Doctor in Nursing Practice [DNP]). These, in addition to the PhD programs, that were already in existence. These multiple degrees created confusion for employers, academia, and funding agencies (Reid Ponte & Nicholas, 2015). In 2001, the American Association of Colleges of Nursing (AACN) Task Force on Quality Doctoral Education took actions to end this confusion between the research-focused programs (Edwardson et al., 2002). After examining the program curricula and their outcomes, they found few differences among the DNS,

8

DNSc, DSN, and PhD programs. Since then, the DSN, DNS, and DNSc programs have been phased out and converted to PhD programs at most universities, and recipients of these degrees were able to convert them to PhD, retroactively (Edwardson et al., 2002; Rice, 2016). While conducting an online search of nursing doctoral programs in the US, only two universities have advertisements for DNS or DNSc programs available on their internet sites. Louisiana State University Health is offering DNS and the University of Medical Sciences Arizona, a DNSc. The ND and DNP were classified as practice-oriented degrees. In 2004, the AACN recommended that the DNP should be the degree associated with practice-focused doctoral nursing education (AACN Task Force on the Practice Doctorate in Nursing, 2004). **Tables 1a** and **1b** show the trends of nursing doctoral programs in the United States from 1930 to 1990 and total numbers of nursing doctoral programs from 1999 to 2000 according to an AACN survey. Retrieved from Edwardson et al., 2002.

| Decade     | Program             |     | De  | egree Offered |    |
|------------|---------------------|-----|-----|---------------|----|
| Beginning: | Totals <sup>1</sup> | EdD | PhD | DNS/DNSc/DSN  | ND |
| 1930       | 2                   | 1   | 1   | 0             | 0  |
| 1940       | 0                   | 0   | 0   | 0             | 0  |
| 1950       | 1                   | 0   | 1   | 0             | 0  |
| 1960       | 3                   | 0   | 1   | 2             | 0  |
| 1970       | 20                  | 0   | 14  | 3             | 3  |
| 1980       | 30                  | 0   | 25  | 5             | 0  |
| 1990       | 26                  | 0   | 22  | 3             | 1  |

<sup>1</sup>Indicates number of doctoral programs and not schools; several schools have had more than one program.

Table 1b. Total Number of Nursing Doctoral Programs in 1999-2000 Academic Year

| Academic  | Program            | Degree Offered |     |                |    |
|-----------|--------------------|----------------|-----|----------------|----|
| Year      | Total <sup>1</sup> | EdD            | PhD | DNS/DNSc/DSN   | ND |
| 1999-2000 | 78                 | 1              | 64  | 9 <sup>2</sup> | 4  |

<sup>2</sup>The total number of DNS programs is less than the sum of programs since a number of schools have closed their DNS program (Source: AACN, 2000a&b).

In the document entitled *Structure of the U.S. Education System: Research Doctorate* Degrees developed by the US Department of Education International Affairs Office in June 2020 (https://www2.ed.gov/about/offices/list/ous/international/usnei/us/doctorate.doc) defines the research doctorate, or Doctor of Philosophy (PhD) and its equivalent degrees, as representing the highest academic qualification in the United States educational system. The document identifies several examples of the degrees equivalents of doctoral degrees in research and one of them is the Doctor in Nursing Sciences (DNS).

When we initially proposed our doctoral program, we requested a PhD program, following the AACN report (2010). Instead, university authorities recommended that we begin with the doctorate degree DNS, because our SON was not scholarly mature enough to support a PhD program, indicating the need for more faculty publications. Now, almost eight years later, we have had many accomplishments in which to justify our petition to convert the current DNS Program to a PhD Nursing Program, following the AACN report (2010) and national trends, since 2001. Since the beginning of the doctoral program, faculty and doctoral students have been conducting research using qualitative, quantitative, or mixed methods. Because research is such a critical element of the PhD program, we admit students whose scholarly interests are congruent with the expertise, including pain, delirium, sleep, HIV, diabetes, and violence.

We are currently compliant in having a learning environment, including infrastructure, faculty, resources, and support for successfully educating the doctoral student in all core outcomes with an emphasis on different research phenomena in nursing science.

### Major Accomplishments to Sustain a PhD Program

*Faculty Prepared at Doctoral Level.* Since 2012, we have increased the number of faculty with doctoral preparation from 13 to 23. Of these doctorates, 6 are PhD in Nursing and 2 DNS (nursing research-focused doctorate). Ten members of our faculty collaborate with the current DNS Program by teaching or mentoring students. A faculty member recently obtained her PhD in nursing that is a potential faculty for the doctoral program. Besides, a group of our nursing faculty has demonstrated a commitment to research, generating new knowledge for the discipline, connecting practice with education, and leading activities to improve health and transform health care. A table with a description of the faculty's academic experience, credentials, and course assignments will be showed in section VI- Faculty.

*Research Advancements.* One of the most significant changes at the SON to support the doctoral program was creating the Center for Research and Evidence-Based Practice (CIPBE, acronym in Spanish), which was inaugurated on October 24, 2013. A description of the CIBPE is included in section VIII- Teaching and Research Infrastructure.

We also increased and expanded our experience with grants and interprofessional research collaborations (**Table 2**).

| Table 2 | Faculty | Grants | Experience |
|---------|---------|--------|------------|
|---------|---------|--------|------------|

Faculty Highlights and Research Productivity. During these years, some SON faculty

members have increased their scholarly work.

### Name: Dr. Carmen Mabel Arroyo-Novoa

**Current position and credentials:** Full professor and Director of the Doctor of Nursing Science Program, PhD, Fellow in Critical Care Medicine (FCCM) of the American College of Critical Care Medicine.

<u>NIH</u> Scholar: 2015 Post-doctoral Master of Science in Clinical and Translational Research Program/Hispanic Clinical and Translational Research Education and Career Development Program R25MD007607.

Research area and contribution to science: Pain, agitation, withdrawal syndrome, sedation

- Research: 2018: Continuous use of opioids and benzodiazepines in trauma intensive care unit survivors, indications, and implications: A follow-up study [Supported by NIH-NIMHD R25MD007607 (Martínez, PI)]
- 2. Research: 2016- 2017- latrogenic Withdrawal Syndrome in Adult Trauma Intensive Care Unit Patients. [Supported by NIH-NIMHD R25MD007607 (Estapé, PI)]
- 3. Research: 2013- 2014- Co-Principal Investigator: Occurrence and current practices of assessment, management, and prevention of pain, agitation, and delirium in intensive care unit [Project supported by Vice Presidency for Development and Technology UPR (MFP-6251123)]

### **Conference and Poster presentations**

- 1. 49<sup>th</sup> Critical Care Congress (SCCM), Orlando, FL (Feb 2020). e-poster presentation: Opioid use decreases while pain continues in trauma ICU survivors: A follow-up study
- 2. 3<sup>rd</sup> Trauma Symposium, Caguas PR. (August 23, 2019). Audience: Nurses, Physicians, and Respiratory Therapists. Topic: Reducing Opioids Use in Injured Patient.
- 3. 26<sup>th</sup> Puerto Rico Critical Care Convention, Caguas PR. (May 3, 2019). Audience: Nurses, Physicians, Respiratory Therapists, and Dietitians. Topic: Opioid and benzodiazepine withdrawal syndrome: Can we predict, prevent, and manage it?
- 4. 31<sup>st</sup> European Society on Intensive Care Medicine Annual Congress, París, FR (Oct 2018). eposter presentation: Factors associated with probable withdrawal syndrome in trauma intensive care unit patients.

- 5. 47<sup>th</sup> Critical Care Congress (SCCM), San Antonio, TX (Jan 2018). e -poster presentation: Identifying opioid and benzodiazepine withdrawal in trauma intensive care (TICU) unit patients.
- 6. Poster presentation: Signs and symptoms associated with opioid and benzodiazepine withdrawal in adult trauma intensive care unit patients.
- 7. 3<sup>rd</sup> Central American and the Caribbean Intensive Therapy Congress (COCECATI), San Salvador, El Salvador (June 22-26, 2015). Topic: Pain Management in Patients of Critical Care Unit.
- 35<sup>th</sup> Annual Research and Education Forum, UPR, MSC (March 25-26, 2015). Poster presentation: Occurrence of Pain, Agitation/Sedation, and Delirium in Adult Intensive Care Patients in San Juan, Puerto Rico.
- 9. Cardiovascular Center, Critical Care Course (2013, 2014). Topic: Arterial Blood Gases Interpretation and Capnoghraphy Cardiac Dysrhythmias and ACLS Algorithm.
- 10. University District Hospital, Critical Care Course (2013). Topic: Arterial Blood Gases Interpretation

### **Conference and Poster Presentations**

- 1. 9<sup>th</sup> American Delirium Society, Boston, MA. (June 17-19, 2019) Poster: Translation and cultural adaptation process to Spanish of the Preschool Confusion Assessment Method for the Intensive Care Unit (psCAM-ICU)
- 39<sup>th</sup> Annual Research and Education Forum, Medical Sciences Campus-UPR San Juan, Puerto Rico (April 10-12, 2019) Oral: Análisis de los Argumentos de Oposición a la Ley de Inclusión de Familiares en las Unidades de Cuidado Intensivo de Puerto Rico.
   Poster: Traducción y adaptación cultural al español del método para la evaluación de la confusión en la unidad de cuidado intensivo para preescolares (psCAM-ICU).
- 3. 26<sup>th</sup> Puerto Rico Critical Care Convention, Caguas, PR (May 3, 2019) Topic: Pain, Agitation, Delirium, Immobility, and Sleep Disturbance Guidelines 2018
- 24<sup>th</sup> Puerto Rico Critical Care Convention and 4<sup>th</sup> Central American and the Caribbean Intensive Therapy Congress (COCECATI) 2017, San Juan, PR (May 2-5, 2017) Topics: Plenary, ICU Liberation ABCDEF; Delirium Management in Critically-ill Pediatric Patients
- 3<sup>rd</sup> COCECATI San Salvador, El Salvador (June 22-26, 2015) Topics: Delirium in ICU: Prevention, Identification, and Management; Top Ten Medical Errors in the ICU; New Guidelines of Sedation for Critically-ill Patients
- 35<sup>th</sup> Annual Research and Education Forum, Medical Sciences Campus-UPR San Juan, Puerto Rico (March 25-26, 2015) Poster: Assessment and Management Practices of Pain, Agitation/Sedation, and Delirium in Adult Intensive Care Patients in San Juan, Puerto Rico
- 20<sup>th</sup> Puerto Rico Critical Care Convention, Puerto Rico Convention Center (2013) Audience: Nurses, Physicians, Respiratory Therapist, and Dietitians Topic: Pain, Agitation, and Delirium: Guidelines 2013

### B. Program Description

Since its inception, our program has been congruent with PhD programs in nursing in accordance with the AACN Task Force on the Research-Focused Doctorate in Nursing (2010). Since our current doctoral degree (i.e. DNS) and the proposed degree (i.e., PhD) are academic equivalents, both the program description and objective will not be changed. The PhD is a research-focused program designed to prepare nurse scientists with the investigative skills of a researcher. The graduate will be capable of developing and expanding the nursing body of knowledge, and able to build and use theoretical and practice models in the delivery of health care, to influence the health status of people, improve outcomes and quality of life, and promote public policies to address health care issues in the health care system in Puerto Rico. Our Doctoral Program's objective is to prepare nurses at the highest level of nursing science with the ability to conduct research to advance nursing science. Our doctoral program continues to emphasize the philosophy of science, theory, and research and is composed of core courses, specialty courses, electives, and dissertation courses. Comparison between our doctoral program and PhD nursing programs from three (3) other recognized and accredited institutions is shown in **Appendix 1**.

### C. Learning Modality

### **Current Status**

Current teaching-learning modality is traditional (face-to-face) only.

### **Requested Change**

Change to a hybrid teaching-learning modality. That is, a combination of face-to-face and distance modalities.

### Justification

The faculty of the DNS Program conducted an evaluation to examine different ways of delivering accessible doctoral level preparation to currently nurses employed in a variety of settings. Focus groups were conducted, with current students and alumni from different cohorts (2014 to 2018), to explore their academic experiences during the DNS Program and gather their suggestions for curriculum changes and revisions. One salient recommendation by many students/alumni was incorporating hybrid or distance learning methodologies in some courses. They recommended the option of hybrid or distance methodologies in some courses to allow for more efficient time management within their daily responsibilities and promote interaction in an innovative way in this virtual era.

An academic change from entirely traditional (face-to-face) to hybrid modality is proposed to provide an opportunity for educational access not previously available in the DNS Program. The online education experience has served as a stimulus for the incorporation of new learning, provides opportunity for convenient educational access not previously available, and builds strong personal and professional relationships among nurse educators (Leners, Wilson, & Sitzman, 2007). Those factors that have contributed to the recent rapid growth of nursing doctoral education at a distance. The program in hybrid modality will offer an accessible way for students to work and complete doctoral degree requirements, potentially increasing interest, and admissions to the doctoral program. The courses described in **Table 3** will be offered in hybrid modality (25-75% instructional hours will be at distance).

 Table 3. Percent of Instructional Hours Distributed in Distance and Face-to-Face Learning

 Modality per Course

### D. Program Expected Start Date

The PhD program is expected to start on August 2021.

### E. Program Duration and maximum Time to Complete Program

We are requesting to increase the program of study by one year.

### Current Status

The current curriculum sequence of the Doctoral Program is completed in three (3) academic years (minimum time to complete the academic degree). The academic program begins with core courses to provide a theoretical framework for the development of research. Then, students take specialty courses to enhance the design of a research project. Students takes three courses (9 to 10 cr.) per semester during the first two years in the Program. They also take 2 courses (4 cr.) in the first summer of the Program (**Appendix 2**).

### **Requested Change**

Increase the curriculum sequence of the Doctoral Program to four (4) academic years (minimum time to complete the academic degree). The student will take one or two courses (4 to 7 cr.) per semester, during the years in the Program (**Appendix 3**). To be able to increase the program length, the faculty identified the need to delete a course adding its content to others, relocate courses, and add a third dissertation course. These changes are proposed while maintaining congruency of core and specialty courses. **Table 4** shows a comparison of the current curriculum vs. the proposed curriculum.

We will delete the ENFE 8006 Bioethicsin Health Sciences course and its content will be integrated into other existing courses: ENFE 8005-Philosophy of Nursing Science, ENFE-8007 Qualitative Research Methods and ENFE 8008-Quantitative Research Methods. The comprehensive examination will be integrated into the ENFE 8026-Research Guided II course with the purpose of having the student begin their dissertation courses during the summer of year 3, thus providing more time for data collection for their dissertation project.

The time to complete the program requirements may not exceed eight (8) years, same as the current program.

### Justification

The graduation rate of active students from 2012-13 to 2017-18 cohorts, at the minimum time (3 years), is 23% (3 alumni out of 13 students). The percentage increases to 62% (8 alumni of 13 students who graduated in 5 years or less) within the maximum time (8 years). We did an internet search of the minimum years for PhD completion in different SONs from renowned

Universities in US (University of California- San Francisco, University of Pennsylvania, Yale University, and the University of Massachusetts) and their minimum fluctuates from 3 to 4 years and 3 to 5 years to a maximum of 7 and 8 years. In addition, our retention rate has fluctuated from 25% to 100% along the program years.

One of the main factors that influence non-compliance with both the graduation and retention rates is that student's profiles indicate that 100% work full-time, with over 90% of them working as full-time professors in nursing programs. This factor influences students' progress and the time to complete the academic degree due to academic overload. In focus groups conducted with current students and alumni from different cohorts (2014 to 2018), students expressed that taking three courses per semester is too overloaded and recommended an increase of one more year to the program.

Other identified factor that influence non-compliance with graduation rate at the minimun time is the majority of students have taken longer than expected in dissertation courses, specifically, because of the time that it has taken them to complete the data collection process. Currently, dissertation courses (I and II) are sequential courses that take the student throughout the entire research process, beginning with the research proposal defense, then conducting institutional and study setting administrative and authorization processes, then data collection, analysis, development of chapters 4 and 5 of dissertation, and finally, dissemination. Adding a third course (Dissertation III) will provide students more time to successfully complete the entire research process.

### Table 4. Current Curriculum vs Proposed Curriculum

Legend: cr= credits semester, tr= trimester, red= courses eliminated, green= new courses, blue= course name changed orange= credits changed

### **II. Program Accreditation**

The PhD program, similar to the current DNS program, does not require accreditation by a nursing accreditation agency, as only professional doctoral programs preparing nurses for advanced practice are accredited (AACN Task Force on the Practice Doctorate in Nursing, 2004). Nevertheless, the AACN has established essential elements for research-focused doctoral programs that institutions can use as foundation to guide periodic reviews of the program quality and sustainability (AACN Task Force on the Research-Focused Doctorate in Nursing, 2010).

### **III. Conceptual Framework**

The conceptual framework, philosophy, and objective of the PhD program will be the same as the current DNS program since both programs are equivalents.

### **IV. Graduate Profile**

The PhD academic offer, is based on the principle that theory and practice are joined through research. This profile is the same established for the current DNS program. The PhD program graduate of the SON will exhibit competencies in the following areas:

### Application of conceptual models and theories

- 1. Skills pertaining to the development of theoretical models that will contribute to the improvement of nursing.
- 2. Innovation through the evaluation and proposal of models that will have direct impact on health systems, research and academia.

### • Construction of knowledge

- 1. Advanced knowledge, skills and attitudes regarding research.
- 2. Commitment to the logical, ethical and epistemological dimensions while conducting research.
- 3. Skills in writing and publishing scholarly research papers with sociocultural relevance as well as oratory skills for disseminating research findings of studies that promotes the advancement of nursing science.

### • Leadership

- 1. Leadership in the development, execution and dissemination of research findings that contribute to the development of public policies.
- 2. Collaborative skills that allow efficient organization, participation and direction of research studies.

- 3. Commitment with the nursing profession as well as the promotion of empowering colleagues practicing within the discipline.
- 4. Ethical competency with regards to research and issues of the profession and of the health care system.

### • Critical Thinking

- 1. Critical thinking that will contribute to the validation and adaptation of theoretical models that promote evidence-based practice that improves culturally diverse nursing practices.
- 2. Critical thinking skills in formulating research arguments, problem solving, creative thinking and decision making.

### V. Curricular Design

### A. Course Variations

All content offered in the DNS program courses will continue to be provided in the PhD program. However, some variations will be made. We are requesting the following changes that will be described and justified in **Table 5.** These changes; course descriptions, pre-requisites, co-requisites, the course title, elimination, and addition of a course; respond mainly to curriculum sequence changes.

### **B. Curricular Structure**

The distribution of courses by category and its percentage of credits are detailed in **Table 6.** Specialty courses and dissertation courses constitute a higher percentage of the curricular sequence.

### **Table 5. Courses Variations**

| Area                                              | Current Status                                                                                                                                                                                                                                                                                                                                                                  | Requested Change                                                                                                                                                                                                                                                                                                                          | Justification                                                                                                                                                                                                                                                                                                                                                                                         |

|      |                | (Appendices 11 and 12- Course Syllabi<br>Appendices 13 and 14- Creation of<br>Courses Forms) | During the 7 years of the program, 58% of the students have not passed at least one of the biostatistics courses on their first try. A deficiency has been observed in students from the SON in these courses. In group discussions with alumni and current students from different cohorts (2014, 2015, 2016, 2017, and 2018), they recognize the importance of statistics in the program. However, they claim that taking these courses with SPH students, with more background in statistics, places them at a disadvantage. Furthermore, they indicate that many times the content is directed to public health priorities that do not necessarily meet their needs as students of the SON. As this problem has been identified, the biostatistics courses will be of ENFE classification and both will be focused on the application of biostatistics to nursing research. This strategy is an opportunity to refocus the development of this knowledge. The aim is to facilitate learning efficiently in the critical concepts of statistics and to understand the personal and professional relevance of statistics in the development of new knowledge in nursing. Supporting active learning with this strategy will promote skills in the field of statistics at the graduate level and will have a positive influence on students' attitude towards statistics. |

## Table 6. Course Distribution by Category, Credits, and Credits Percentage

## VI. Admission and Graduation Criteria

## A. Change in Admission Criteria #1

## **Current Status**

"Master's degree in nursing from an accredited professional program, i.e. CCNE, ACEN, NLNAC, with a minimum average of 3.00 obtained in the master's, on a 4.00 scale. Should present an official transcription of all academic nursing degrees at undergraduate and graduate level".

## **Requested Change**

We request that the criterion should read: "Master's degree in nursing from an accredited professional program, i.e. CCNE, ACEN, NLNAC, with a minimum 3.00 GPA (on a 4.00 scale). An official transcript of all obtained academic degrees at the undergraduate and graduate level of nursing must be presented. In the event that the candidate applies for admission while completing their MSN degree, admission to the Doctoral Program will be conditional on presenting evidence of successful completion."

### Justification

Because the criteria are not specific, students in their last year of master's degree are not being considered. This limits the number of students interested in continuing doctoral degrees being able to apply to the program while on their last year of master's degree and continue studies without having to wait until the next admission year.

## B. Change in Admission Criteria #2

### **Current Status**

The admission requirements include the admission exam to graduate programs (EXADEP) with 20%.

#### **Requested Changes**

Eliminate EXADEP from the admission requirements and redistribute the 20% in the interview and scholarly writing. **Table 7** compares the current and proposed changes.

### Justification

This change resulted from the discontinuation of the admission exam to graduate programs (EXADEP) in Puerto Rico. As far as the entrance exam, some U.S. universities are not requiring it or leave it as an optional criterion (i.e., Graduate Record Examination [GRE]) for admission to their PhD programs.

| Admission Requirement                                | Current | Proposed Change |
|------------------------------------------------------|---------|-----------------|
| Essay on professional goals<br>and research interest | 30%     | 30%             |
| Interview with Graduate<br>Program Faculty           | 10%     | 20%             |
| Scholarly writing                                    | 20%     | 30%             |
| EXADEP or GRE                                        | 20%     |                 |
| GPA from Master's degree<br>in Nursing               | 20%     | 20%             |
| Total                                                | 100%    | 100%            |

### C. New Admission Criterion

#### **Requested Criterion**

We request a new criterion be added: "Evidence of having one-year of nursing practice experience." It is expected that applicants have clinical experience; however, having nursing practice experience is not considered in current criteria.

#### Justification

The study of a clinical phenomenon is required in the doctorate; thus, the candidate should have clinical experience that can provide a frame of reference to be able to identify and develop a research phenomenon. One qualitative study with PhD students admitted to a US university at different levels of entry (early-entry admitted immediately upon baccalaureate graduation, midentry with a baccalaureate and one-year clinical experience, and delayed-entry with a master's degree and one or more year of clinical experience) found that those admitted early (without any clinical experience work) expressed their concern about their lack of clinical experience and clinical knowledge (Nehls, Barber, & Rice, 2016).

#### D. Graduation Criteria

#### **Current Status**

The current DNS degree is completed with a total of 51.69 credits semester (47 cr. semester and 7 cr. trimester).

#### **Requested Criterion and Justification**

As a consequence of the course variations (i.e., elimination of the bioethics course and change of both biostatistics courses to be taught in semester), the PhD degree is completed with 51 credits semester.

#### VII. Faculty

As described previously we have increased the number of faculty with doctoral preparation. **Table 8** shows the doctoral program faculty's academic experience, credentials, and course assignments.

| Faculty Name               | Academic Cr                                                                                 | edentials                                                           | Years of               | Active in | Courses offered or                                                                                                                                                                                               | Courses that can teach                                                                                                                                                                                                |

#### VIII. Teaching and Research Infrastructure

#### A. Teaching

The RCM Online Division, recently created at the UPR-MSC, will be beneficial to comply with the proposed change of hybrid teaching-learning modality (i.e., face-to-face and online). The objectives of the RCM Online Division are to give accessibility to the learning management system Blackboard Ultra and to educate, guide and assist the faculty on this educational technology.

#### B. Research

As described previously one of the most significant changes at the SON to support the doctoral program was creating the CIPBE, which was inaugurated on October 24, 2013. It is currently supported by the UPR-MSC Research Deanship and is administratively housed within the UPR-MSC, SON. In 2015, Dr. Milagros I. Figueroa-Ramos was appointed as the SON's first Assistant Dean for Research, only the second named at any School on Campus. The Assistant Dean for Research is responsible for enhancing and promoting research and evidence-based practice culture within the SON. Dr. Figueroa has been successful in establishing numerous collaborative agreements with career researchers, research-intensive institutions, and private entities to promote the development of competitive research projects and mentoring opportunities for faculty and students. Additionally, she has been successful in obtaining institutional funding support to continue building research capacity with our young investigator faculty and promote and enhance research activities for students and faculty. More recently, she has received intramural funding for capacity advancement for faculty and student research development and a percent of the budget has been allocated for doctoral students.

The CIBPE's mission is to promote collaborative and scientifically meritorious research and scholarly activities among faculty and students at the SON that advances the search for scientific data to impact systemic health with a special awareness of health disparities. The CIBPE has a Director (Solymar S. Solís-Báez) who supports researchers, faculty, and students and oversees CIBPE activities. CIBPE services are geared toward supporting various components of the research process, including the following: 1) conference room space and workspace for assembling project documents; 2) assistance with administrative processes that must be conducted within the MSC to conduct research; 3) equipment such as four desktop computers, printer, Internet, and InFocus projection; 4) software for conducting quantitative and qualitative data analysis; 5) Institutional Review Board (IRB) submission support; 6) document editing; and 7) support in the identification of resources and training of students, research assistants, among others.

### IX. Budget Plan

The doctoral program's financial capacity will continue to be self-sustainable, the same as the past seven years (2012-2019). The estimated income for the doctoral program was obtained from tuition and a special annual fee. During this time, the tuition cost per student was \$7,000 to \$7,500, and a special fee of \$500, totalizing \$7,500 to \$8,000. The income for the current doctoral program (DNS) has been sufficient to support the program's operational expenses.

The tuition for the PhD Program will be \$7,500 per student, per academic year and \$500 as a special annual fee. Since the program is self-sustainable, tuition exemptions will not be accepted. The income takes into account a per-credit fee of \$588.00. The PhD program will have its budget plan, designed upon a self-sustainable model in which income pays for necessary expenditures. The estimated relationship between income and expenses for the proposed program is detailed in Table 9. The estimated income will be obtained from the institution (in-kind), tuition, and special annual fee.

The estimated income will be used exclusively for personnel (salaries, fringe benefits, faculty professional development), consultancy services, student development activities, purchase of materials and equipment to support research: software, educational technological and other program expenses. Table 10 detailed the estimated additional expenses (see also Appendix 37). In this way, we can continue to strengthen the program, maintain this academic contribution's excellence, and support students' research development.

### X. Summary

Since the establishment of our Program, the SON has worked diligently to support the development of research infrastructure, including the CIPBE, an increase in scholarly work of faculty, support systems, and physical space to promote the continuous development of the Doctoral Program. As the only doctoral degree program for research in nursing in Puerto Rico, we feel it of utmost importance to continue to evolve to maintain competitiveness in nursing.

When examining doctoral degrees, the PhD degree is more marketable and holds more prestige than the DNS, which is scarce and extinguishing in the U.S. It is also the most competitive when submitting proposals for extramural funding to agencies and institutes such and the National Institutes of Health (NIH) and the Health Resources Services and Administration (HRSA), among others. It also provides more professional opportunities for our graduates in diverse settings. In addition, the majority of U.S. universities have converted their DSN, DNS, or DNSc to PhD

programs. It is our hope that the presented rationale supports a favorable decision to change the name of our academic degree from Doctor of Nursing Science to Doctor of Philosophy.

Extending the program of study to four-year will allow doctoral students to enroll in only two concurrent courses per semester and one course in the summers. Fewer credits per semester will make the academic workload less demanding, facilitating fulfillment of assigned tasks in courses. Also, offering the comprehensive exam at the end of the third year by integrating it in the Research Guided II course will permit to start early the proposal defense and consequently study data collection. All of these changes with the addition of another dissertation course may result in improved retention and graduation rates.

| COURSE CODIFICATION:  | ENFE 8005                                 |
| CREDIT/CONTACT HOURS: | 3 cr. /3 hrs. per week (54 hrs. semester) |
| PRE-REQUISITES:       | NONE                                      |
| CO-REQUISITES:        | NONE                                      |
| OTHER REQUIREMENTS:   | NONE                                      |

**COURSE DESCRIPTION:** Introduction to concepts of philosophy and science. Analysis of nursing philosophy, nursing science, and philosophy of nursing science. Study of philosophical traditions in nursing science. Review of selected philosophers that influenced science and knowledge development. Study of the epistemology, ontology, and ethics in nursing. Analysis of ways of knowing in nursing and development of knowledge. The course will be taught using hybrid modality.

## LEARNING OBJETIVES:

- 1. Contrast fundamental components and elements of philosophy and science.
- 2. Distinguish between the philosophy of nursing, the science of nursing, and the philosophy of nursing science.
- 3. Argue about the nursing philosophy, nursing science, and philosophy of nursing science.
- 4. Distinguish between philosophical traditions and identify underpinnings for nursing research.
- 5. Discuss the influence of selected philosophers in science and knowledge development.
- 6. Analyze philosophical paradigms accepted in nursing that influence nursing knowledge development.
- 7. Analyze the epistemological and ontological fundamentals of nursing.
- 8. Analyze the ethical aspects of nursing from a deontological perspective.
- 9. Evaluate the epistemological, ontological, and deontological contribution to the development of nursing knowledge.
- 10. Analyze ways of knowing in nursing and development of knowledge.

- V. Epistemology, ontology, deontology of Nursing development of the discipline.
  - 12 hrs. face-to-face

- A. Nursing epistemology
- B. Nursing ontology
- C. Nursing deontology
  - 1. Foundations of ethics and bioethics
    - i. Clarification of Terms: Ethics (metaethics, bioethics, normative ethics, and applied ethics), bioethics, research ethics, moral, values, moral principles
    - The development of morality ii.
    - iii. Moral norms
    - iv. Moral character
    - Theories of morals and ethical V. theories
  - 2. Ethical knowledge development and ethical pattern of knowing.
- 3 hrs. face-to-face VI. Ways of knowing in Nursing and knowledge development..... 6 hrs. distance
  - A. History of knowledge development inf Nursing
  - B. Fundamental knowing patterns in Nursing
  - C. Emancipatory pattern of knowing in Nursing
  - D. Trends in knowledge development in Nursing

Total:

18 hrs. face-to-face 36 hrs. distance

## **INSTRUCTIONAL STRATEGIES:**

- Lectures (synchronous and asynchronous)
- Reflective Discussions (Forums) (synchronous and asynchronous)
- Presentations (synchronous)
- Discussion of articles (synchronous)

## LEARNING RESOURCES AND MINIMUM FACILITIES AVAILABLE OR REQUIRED:

- Computer
- In Focus
- Internet access
- Blackboard Ultra Learning Management System or the current platform adopted by the Medical Sciences Campus
- Institutional e-mail Account
- MSC library

## **EVALUATION TECHNIQUES:**

| 1. | Assignment                                                     | 5%  |
|----|----------------------------------------------------------------|-----|
| 2. | Paper (argumentative)                                          | 20% |
| 3. | Paper of meta philosophies                                     | 15% |
| 4. | Paper about own Philosophy of nursing and structure of nursing |     |
|    | knowledge                                                      | 20% |
| 5. | Comprehensive examination question                             | 15% |
| 6. | Discussion and class participation                             | 25% |

## **REASONABLE MODIFICATION STATEMENT:**

Any student who presents a condition or health situation that qualifies him / her before the law to receive reasonable modification, has the right to make his request in writing in the Office of Services for Students with Disabilities (OSEI), following the procedure established in the document Request for Services and Reasonable Modification. A copy of this document is obtained in the OSEI Office, located on the third floor of the Dr. Guillermo Arbona Irizarry building, office B-349 (next to Medical Services for Students) and on the RCM's website in the Deanship of Students portal. The application does not exempt the student from fulfilling the academic requirements of the study programs.

CIPE - Amended and Updated on 02-07-2018.

## ACADEMIC INTEGRITY:

The University of Puerto Rico promotes the highest standards of academic and scientific integrity. Article 6.2 of the University of Puerto Rico General Student Regulations (Board of Trustees Certification 154 2010-2011) in section 6.2.1 defines Academic Dishonesty as: "Any form of dishonesty or lack of academic integrity, including, but not limited to, fraudulent actions, obtaining grades or degrees using false or fraudulent simulations, copying in whole or in part the academic work of another person, plagiarizing in whole or in part the work of another person, to copy in whole or in part the answers to the questions of an examination from another person, making or getting another person to take any oral or written test or examination on their behalf, as well as help or facilitate that another person incurs in said behavior". Section 6.2.2. defines Fraudulent Conduct as: "Conduct with intent to defraud, including, but not limited to, malicious alteration or falsification of grades, records, identification cards or other official documents of the University or any other institution. Any act or action of passing or circulating as genuine and true any of the documents specified above will also be subject to disciplinary sanction, knowing that they are false or altered". Any of these actions will be subject to disciplinary sanctions in accordance with the procedure established in the current University of Puerto **Rico General Student Regulations.** 

**DISCLAIMER**: The above statement is an English Translation of certain parts Article 6.2 of the General Student Regulations of the University of Puerto Rico (Reglamento General de Estudiantes de la Universidad de Puerto Rico – Cert. JS 154 2010-2011). It was originally prepared by the Deanship of Academic Affairs of the Medical Sciences Campus,

and revised and approved by the Academic Senate on March 2, 2017. In case of a discrepancy or disagreement with the original text in Spanish, the Spanish version will always prevail and be given priority.

Approved by the Academic Senate, Certification 049, 2016-2017.

# TITLE IX: NO DISCRIMINATION

The Medical Sciences Campus (MSC) of the University of Puerto Rico (UPR) does not discriminate in its academic offerings because of sex, race, color, age, national origin, political or religious ideas, gender, gender identity or expression, pregnancy, civil status, sexual orientation, ethnic origin or because of being a victim or be perceived as a victim of domestic violence, sexual assault, sexual harassment or stalking. This policy complies with federal statutes under Title IX, as amended, and related the institutional policies of the UPR. It is the duty of every member of the university community to notify any discrimination or complaint event before the Office of the Title IX Coordinator, telephone 787-758-2525, ext. 1368 or 1360, or accessing the web page www.rcm.upr.edu/tituloix. Approved by the Academic Senate, Certification 035, 2018-2019, Amended.

| OTHER REQUIREMENTS:   | None                                      |

# **COURSE DESCRIPTION:**

This course is geared towards the study of qualitative methodology with an inductive focus used to generate knowledge from human experience in different health and illness situations, as well as from nursing practice and models. Philosophical and psychological underpinnings of qualitative research paradigm which underlie ethnographic, phenomenological, case study, historiography and emerging or grounded theory design will be analyzed. Also, the student must apply the bioethical principles that guide the trustworthiness of qualitative research to protect the human rights of participants. The course will be taught using hybrid modality.

### LEARNING OBJETIVES:

- 1. Analyze the philosophical and psychological underpinnings of the qualitative research paradigm.
- 2. Examine the contrast between quantitative and qualitative research methods with respect to ontological, epistemological, methodological and cultural aspects.
- 3. Analyze a problem or phenomenon that merits study through an appropriate qualitative design method in order to answer a research question.
- 4. Conduct critical analysis of qualitative research on nursing phenomena.
- 5. Analyze ethical aspects and its applicability to scientific rigor when conducting qualitative research.
- 6. Analyze the different qualitative methods such as ethnography, phenomenology, case study, historical and grounded theory.
- 7. Proposing a qualitative methodology for a particular research situation.
- 8. Develop a qualitative research proposal.

- 9. Apply various methods for conducting qualitative data analysis
- 10. Analyze individual value system and the way this affects the human and scientific aspects of the researcher.

  - 1. Participant observation
  - 2. Focus group
  - 3. Interviews (structured and non-structured)
  - 4. Field notes
- C. Plan for data interpretation (thematic framework and coding)
- D. Software for data analysis and interpretation of qualitative research

Total: (54 hrs.) 18 hrs. face-to-face 36 hrs. distance

# **INSTRUCTIONAL STRATEGIES:**

- Lectures (synchronous and asynchronous)
- Discussions forums (synchronous and asynchronous)
- Oral presentations by students where they will critically analyze qualitative research studies (synchronous).
- Workshops about computer software used to manage data obtained through qualitative studies.

# LEARNING RESOURCES AND MINIMUM FACILITIES AVAILABLE OR REQUIRED:

- Personal computer
- InFocus projector
- Institutional e-mail account
- Internet access
- Blackboard Learn Ultra or the current learning management system adopted by the Medical Sciences Campus
- MSC Library
- Guest speakers
- Qualitative Software (NVivo)
- Center for Research and Evidence-Based Practice of the School of Nursing

### **EVALUATION TECHNIQUES:**

| • | Research articles matrix                                                 | 15% |
|---|--------------------------------------------------------------------------|-----|
| ٠ | Participative observation and field notes techniques for data collection | 15% |
| ٠ | In depth interview and transcription                                     | 10% |
| ٠ | Three qualitative approaches                                             | 50% |
| • | Oral presentation                                                        | 10% |

# **REASONABLE MODIFICATION:**

Any student who presents a condition or health situation that qualifies him / her before the law to receive reasonable modification, has the right to make his request in writing in the Office of Services for Students with Disabilities (OSEI), following the procedure established in the document Request for Services and Reasonable Modification. A copy of this document is obtained in the OSEI Office, located on the third floor of the Dr. Guillermo Arbona Irizarry building, office B-349 (next to Medical Services for Students) and on the RCM's website in the Deanship of Students portal. The application does not exempt the student from fulfilling the academic requirements of the study programs.

CIPE - Amended and Updated on 02-07-2018.

# ACADEMIC INTEGRITY:

The University of Puerto Rico promotes the highest standards of academic and scientific integrity. Article 6.2 of the University of Puerto Rico General Student Regulations (Board of Trustees Certification 154 2010-2011) in section 6.2.1 defines Academic Dishonesty as: "Any form of dishonesty or lack of academic integrity, including, but not limited to, fraudulent actions, obtaining grades or degrees using false or fraudulent simulations, copying in whole or in part the academic work of another person, plagiarizing in whole or in part the work of another person, to copy in whole or in part the answers to the questions of an examination from another person, making or getting another person to take any oral or written test or examination on their behalf, as well as help or facilitate that another person incurs in said behavior". Section 6.2.2. defines Fraudulent Conduct as: "Conduct with intent to defraud, including, but not limited to, malicious alteration or falsification of grades, records, identification cards or other official documents of the University or any other institution. Any act or action of passing or circulating as genuine and true any of the documents specified above will also be subject to disciplinary sanction. knowing that they are false or altered". Any of these actions will be subject to disciplinary sanctions in accordance with the procedure established in the current University of Puerto Rico General Student Regulations.

**DISCLAIMER**: The above statement is an English Translation of certain parts Article 6.2 of the General Student Regulations of the University of Puerto Rico (Reglamento General de Estudiantes de la Universidad de Puerto Rico – Cert. JS 154 2010-2011). It was originally prepared by the Deanship of Academic Affairs of the Medical Sciences Campus, and revised and approved by the Academic Senate on March 2, 2017. In case of a discrepancy or disagreement with the original text in Spanish, the Spanish version will always prevail and be given priority.

Approved by the Academic Senate, Certification 049, 2016-2017.

# TITLE IX: NO DISCRIMINATION

The Medical Sciences Campus (MSC) of the University of Puerto Rico (UPR) does not discriminate in its academic offerings because of sex, race, color, age, national origin, political or religious ideas, gender, gender identity or expression, pregnancy, civil status, sexual orientation, ethnic origin or because of being a victim or be perceived as a victim

of domestic violence, sexual assault, sexual harassment or stalking. This policy complies with federal statutes under Title IX, as amended, and related the institutional policies of the UPR. It is the duty of every member of the university community to notify any discrimination or complaint event before the Office of the Title IX Coordinator, telephone 787-758-2525, ext. 1368 or 1360, or accessing the web page <a href="https://www.rcm.upr.edu/tituloix">www.rcm.upr.edu/tituloix</a>. Approved by the Academic Senate, Certification 035, 2018-2019, Amended.

#### **GRADING SYSTEM:**

100% - 90% = A89% - 80% = B79% - 70% = C69% - 60% = D59% - 0% = F

Minimum criteria: Student must pass the course with 80%, (B) or more.

| This course is geared towards the study of qualitative methodology as<br>a scientific approach with an inductive focus used to generate<br>knowledge from human experience in different health and illness<br>situations, as well as from nursing practice and models. Philosophical<br>and psychological underpinnings of qualitative research paradigm<br>which underlie ethnographic, phenomenological, case study,<br>historiography and emerging or grounded theory design will be<br>analyzed. |                   | with an inductive focus<br>experience in different<br>nursing practice and m<br>underpinnings of qualit<br>ethnographic, phenome<br>emerging or grounded<br>student must apply the<br>trustworthiness of quali | owards the study of qualitative methodology<br>used to generate knowledge from human<br>health and illness situations, as well as from<br>odels. Philosophical and psychological<br>ative research paradigm which underlie<br>enological, case study, historiography and<br>theory design will be analyzed. Also, the<br>bioethical principles that guide the<br>itative research to protect the human rights of<br>e will be taught using hybrid modality. |  |
| JUSTIFICACIÓN DE LOS CAMBIOS:                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                   |                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                             |  |

# **COURSE DESCRIPTION:**

The philosophical and psychological underpinnings of non-experimental and experimental quantitative research will be analyzed. This course focuses on research designs, data collection procedures, measurement, and statistical analysis. Emphasis is given to the critical analysis and the scientific rigor of the quantitative research designs. Through conferences, epistemological dialogues and critical analysis of concepts, students will achieve a conceptual, theoretical understanding of the quantitative paradigm, and ethical implication in each step of quantitative research. The course will be taught using hybrid modality.

### LEARNING OBJETIVES:

- 1. Analyze the philosophical and psychological underpinnings of quantitative research methods.
- 2. Apply the principles of bioethics in the development of quantitative research to ensure rights of participating subjects.
- Demonstrate critical analysis skills during literature review of quantitative studies in order to establish values, strengths, weaknesses, and ethical issues of the studies.
- 4. Compare and contrast the different quantitative designs with respect to use, methods, tools and measurement.
- 5. Develop an alternate quantitative methodology for a research study critiqued in class.

- 6. Argue the role of the researcher in the construction of "truths" in the quantitative research paradigm.
- 7. Analyze individual value system and the way this affects the human and scientific aspects of the researcher

# **INSTRUCTIONAL STRATEGIES:**

- Lectures (synchronous and asynchronous)
- Discussion forums (synchronous and asynchronous)
- Independent work

- Assigned readings
- Research article critical appraisals

# LEARNING RESOURCES AND MINIMUM FACILITIES AVAILABLE OR REQUIRED:

- Guest speakers
- Personal computer
- Statistical software
- InFocus projector
- Institutional e-mail account
- Internet access
- Blackboard Learn Ultra or the current learning management system adopted by the Medical Sciences Campus
- MSC Library
- Center for Research and Evidence-Based Practice of the School of Nursing

# **EVALUATION TECHNIQUES:**

| • | Mastery of content and quantitative research skills will be verified through<br>student's participation as a leader and member of the group during discussions<br>and oral presentations. A standard procedures document will be used to<br>ascertain mastery of these |
|---|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|   | areas                                                                                                                                                                                                                                                                  |
| • | Critical analysis oral presentation of two (2) quantitative studies related to a research topic of interest. The student will use the criteria given in class for this                                                                                                 |

# **REASONABLE MODIFICATION:**

Any student who presents a condition or health situation that qualifies him / her before the law to receive reasonable modification, has the right to make his request in writing in the Office of Services for Students with Disabilities (OSEI), following the procedure established in the document Request for Services and Reasonable Modification. A copy of this document is obtained in the OSEI Office, located on the third floor of the Dr. Guillermo Arbona Irizarry building, office B-349 (next to Medical Services for Students) and on the RCM's website in the Deanship of Students portal. The application does not exempt the student from fulfilling the academic requirements of the study programs.

CIPE - Amended and Updated on 02-07-2018.

# ACADEMIC INTEGRITY:

The University of Puerto Rico promotes the highest standards of academic and scientific integrity. Article 6.2 of the University of Puerto Rico General Student Regulations (Board of Trustees Certification 154 2010-2011) in section 6.2.1 defines Academic Dishonesty as: "Any form of dishonesty or lack of academic integrity, including, but not limited to, fraudulent actions, obtaining grades or degrees using false or fraudulent simulations, copying in whole or in part the academic work of another person, plagiarizing in whole or in part the work of another person, to copy in whole or in part the answers to the questions of an examination from another person, making or getting another person to take any oral or written test or examination on their behalf, as well as help or facilitate that another person incurs in said behavior". Section 6.2.2. defines Fraudulent Conduct as: "Conduct with intent to defraud, including, but not limited to, malicious alteration or falsification of grades, records, identification cards or other official documents of the University or any other institution. Any act or action of passing or circulating as genuine and true any of the documents specified above will also be subject to disciplinary sanction, knowing that they are false or altered". Any of these actions will be subject to disciplinary sanctions in accordance with the procedure established in the current University of Puerto Rico General Student Regulations. **DISCLAIMER**: The above statement is an English Translation of certain parts Article 6.2 of the General Student Regulations of the University of Puerto Rico (Reglamento General de Estudiantes de la Universidad de Puerto Rico - Cert. JS 154 2010-2011). It was originally prepared by the Deanship of Academic Affairs of the Medical Sciences Campus, and revised and approved by the Academic Senate on March 2, 2017. In case of a discrepancy or disagreement with the original text in Spanish, the Spanish version will always prevail and be given priority. Approved by the Academic Senate, Certification 049, 2016-2017.

### TITLE IX: NO DISCRIMINATION

The Medical Sciences Campus (MSC) of the University of Puerto Rico (UPR) does not discriminate in its academic offerings because of sex, race, color, age, national origin, political or religious ideas, gender, gender identity or expression, pregnancy, civil status, sexual orientation, ethnic origin or because of being a victim or be perceived as a victim of domestic violence, sexual assault, sexual harassment or stalking. This policy complies with federal statutes under Title IX, as amended, and related the institutional policies of the UPR. It is the duty of every member of the university community to notify any discrimination or complaint event before the Office of the Title IX Coordinator, telephone 787-758-2525, ext. 1368 or 1360, or accessing the web page <a href="https://www.rcm.upr.edu/tituloix">www.rcm.upr.edu/tituloix</a>. Approved by the Academic Senate, Certification 035, 2018-2019, Amended.

**GRADING SYSTEM:** Academic achievement will be evaluated using a quantifiable grading system (A, B, C, D and F).

100% - 90% = A

89% - 80% = B 79% - 70% = C 69% - 60% = D 59% - 0% = FMinimum criteria: Student must pass the course with 80%, (B) or more.

#### **BIBLIOGRAPHY:**

\*\*Nursing knowledge advances continually and new nursing knowledge is disseminated via journals and other publications. In addition to assigned readings, students are expected to develop their own bibliography of readings that are current in the individual topics under study according to personal interest and need.

| Se analizarán los fundamentos filosóficos y psicológicos de la<br>investigación cuantitativa no experimental y experimental. Este curso<br>se centra en los diseños de investigación, los procedimientos de<br>recogida de datos, medición y análisis estadístico. Se dará énfasis en<br>el análisis crítico y el rigor científico de los diseños de investigación<br>cuantitativa. A través de conferencias, diálogo epistemológico y el<br>análisis crítico de los conceptos, los estudiantes lograrán una<br>comprensión conceptual, teórica del paradigma cuantitativo. |                                          | investigación cuan<br>se enfoca en los di<br>recolección de date<br>análisis crítico y el<br>cuantitativa. ENFE 8XXX - Biostatistics for Nursing Research I Syllabus

#### UNIVERSITY OF PUERTO RICO MEDICAL SCIENCES CAMPUS SCHOOL OF NURSING GRADUATE DEPARTMENT DOCTOR OF NURSING SCIENCES PROGRAM

## SYLLABUS

| TITLE:                | Biostatistics for Nursing Research I      |
|-----------------------|-------------------------------------------|
| COURSE CODIFICATION:  | ENFE 8XXX                                 |
| CREDIT/CONTACT HOURS: | 3 cr. /3 hrs. per week (54 hrs. semester) |
| PRE-REQUISITES:       | None                                      |
| CO-REQUISITES:        | None                                      |
| OTHER REQUIREMENTS:   | None                                      |

## COURSE DESCRIPTION:

This course focuses primarily on the application of inferential statistics to nursing research. Both descriptive and inferential statistical concepts and principles will be discussed through lectures and practice exercises. Statistical software will be used to assess associations between variables through parametric and non-parametric tests, as well as inference statistical tests for categorical variables. The course will be taught using hybrid modality.

## LEARNING OBJETIVES:

- 1. Develop statistical skills to evaluate critically nursing quantitative research.
- 2. Review concepts of descriptive statistics, measurement scale variables, and sampling.
- 3. Understand probability theory and characteristics of a normal distribution.
- 4. Recognize the importance and principles of estimation and hypothesis testing for statistical inferences.
- 5. Discuss assumptions required by the different statistical tests.
- 6. Analyze which statistical test is more appropriate in answering different nursing research questions.
- 7. Interpret statistical methods and study results of research articles.

## **INSTRUCTIONAL STRATEGIES:**

- Lectures (synchronous and asynchronous)
- Written assignments
- Exercises discussions
- Data analysis software demonstration and exercises

## LEARNING RESOURCES AND MINIMUM FACILITIES AVAILABLE OR REQUIRED:

- Personal computer with statistical analysis software
- InFocus projector
- Internet access
- Institutional e-mail account
- Blackboard Learn Ultra or the current learning management system adopted by the Medical Sciences Campus
- Center for Research and Evidence-Based Practice of the School of Nursing

## **EVALUATION TECHNIQUES:**

- Assignments..... 40%
- Final exam ..... 30%

## **REASONABLE MODIFICATION:**

Any student who presents a condition or health situation that qualifies him / her before the law to receive reasonable modification, has the right to make his request in writing in the Office of Services for Students with Disabilities (OSEI), following the procedure established in the document Request for Services and Reasonable Modification. A copy of this document is obtained in the OSEI Office, located on the third floor of the Dr. Guillermo Arbona Irizarry building, office B-349 (next to Medical Services for Students) and on the RCM's website in the Deanship of Students portal. The application does not exempt the student from fulfilling the academic requirements of the study programs.

CIPE - Amended and Updated on 02-07-2018.

#### ACADEMIC INTEGRITY:

The University of Puerto Rico promotes the highest standards of academic and scientific integrity. Article 6.2 of the University of Puerto Rico General Student Regulations (Board of Trustees Certification 154 2010-2011) in section 6.2.1 defines **Academic Dishonesty** as: "Any form of dishonesty or lack of academic integrity, including, but not limited to, fraudulent actions, obtaining grades or degrees using false or fraudulent simulations, copying in whole or in part the academic work of another person, plagiarizing in whole or in part the vork of another person, to copy in whole or in part the auswers to the questions of an examination from another person, making or getting another person to take any oral or written test or examination on their behalf, as well as help or facilitate that another person incurs in said behavior". Section 6.2.2. defines **Fraudulent Conduct** as: "Conduct

with intent to defraud, including, but not limited to, malicious alteration or falsification of grades, records, identification cards or other official documents of the University or any other institution. Any act or action of passing or circulating as genuine and true any of the documents specified above will also be subject to disciplinary sanction, knowing that they are false or altered". Any of these actions will be subject to disciplinary sanctions in accordance with the procedure established in the current University of Puerto Rico General Student Regulations. **DISCLAIMER**: The above statement is an English Translation of certain parts Article 6.2 of the General Student Regulations of the University of Puerto Rico (Reglamento General de Estudiantes de la Universidad de Puerto Rico – Cert. JS 154 2010-2011). It was originally prepared by the Deanship of Academic Senate on March 2, 2017. In case of a discrepancy or disagreement with the original text in Spanish, the Spanish version will always prevail and be given priority. Approved by the Academic Senate, Certification 049, 2016-2017.

## TITLE IX: NO DISCRIMINATION:

The Medical Sciences Campus (MSC) of the University of Puerto Rico (UPR) does not discriminate in its academic offerings because of sex, race, color, age, national origin, political or religious ideas, gender, gender identity or expression, pregnancy, civil status, sexual orientation, ethnic origin or because of being a victim or be perceived as a victim of domestic violence, sexual assault, sexual harassment or stalking. This policy complies with federal statutes under Title IX, as amended, and related the institutional policies of the UPR. It is the duty of every member of the university community to notify any discrimination or complaint event before the Office of the Title IX Coordinator, telephone 787-758-2525, ext. 1368 or 1360, or accessing the web page www.rcm.upr.edu/tituloix. Approved by the Academic Senate, Certification 035, 2018-2019, Amended.

<sup>17</sup> Descripción del curso en español (que no exceda 1,000 caracteres):

Este curso se enfoca principalmente en la aplicación de estadísticas inferenciales a la investigación en enfermería. Los conceptos y principios estadísticos descriptivos e inferenciales serán discutidos a través de conferencias y ejercicios de práctica. Se utilizará un software estadístico para evaluar asociaciones entre variables a través de pruebas paramétricas y no paramétricas, así como pruebas estadísticas de inferencia para variables categóricas. El curso se impartirá utilizando la modalidad híbrida.

#### Descripción del curso en inglés (que no exceda 1,000 caracteres):

This course focuses primarily on the application of inferential statistics to nursing research. Both descriptive and inferential statistical concepts and principles will be discussed through lectures and practice exercises. Statistical software will be used to assess associations between variables through parametric and non-parametric tests, as well as inference statistical tests for categorical variables. The course will be taught using hybrid modality.

## **COURSE DESCRIPTION:**

This is the second part of the Biostatistics for Nursing Research course. This course will emphasize in more advanced statistics, including the extended forms of analysis of variance, a variety of regression models and survival analysis, through lectures and practice exercises. Statistical software will be used to assess associations and the magnitude of associations between variables. The course will be taught using hybrid modality.

## LEARNING OBJETIVES:

- 1. Develop statistical skills to evaluate critically nursing quantitative research.
- 2. Discuss the different methods available of analysis of variance (ANOVA), regressions, survival analysis, and factor analysis.
- 3. Discuss assumptions required by the different statistical tests.
- 4. Analyze which statistical test is more appropriate in answering different nursing research questions.
- 5. Articulate the structure of a statistical analysis plan and the report of statistical results.
- 6. Interpret statistical methods and study results of research articles.

#### **INSTRUCTIONAL STRATEGIES:**

- Lectures (synchronous and asynchronous)
- Written assignments
- Exercises discussions
- Data analysis software demonstration and exercises

## LEARNING RESOURCES AND MINIMUM FACILITIES AVAILABLE OR REQUIRED:

- Personal computer with statistical analysis software
- InFocus projector
- Internet access
- Institutional e-mail account
- Blackboard Learn Ultra or the current learning management system adopted by the Medical Sciences Campus

Center for Research and Evidence-Based Practice of the School of Nursing

#### **EVALUATION TECHNIQUES:**

- Assignments..... 40%
- Midterm exam..... 30%
- Final exam ..... 30%

## **REASONABLE MODIFICATION:**

Any student who presents a condition or health situation that qualifies him / her before the law to receive reasonable modification, has the right to make his request in writing in the Office of Services for Students with Disabilities (OSEI), following the procedure established in the document Request for Services and Reasonable Modification. A copy of this document is obtained in the OSEI Office, located on the third floor of the Dr. Guillermo Arbona Irizarry building, office B-349 (next to Medical Services for Students) and on the RCM's website in the Deanship of Students portal. The application does not exempt the student from fulfilling the academic requirements of the study programs.

CIPE - Amended and Updated on 02-07-2018.

#### **ACADEMIC INTEGRITY:**

The University of Puerto Rico promotes the highest standards of academic and scientific integrity. Article 6.2 of the University of Puerto Rico General Student Regulations (Board of Trustees Certification 154 2010-2011) in section 6.2.1 defines Academic Dishonesty as: "Any form of dishonesty or lack of academic integrity, including, but not limited to, fraudulent actions, obtaining grades or degrees using false or fraudulent simulations, copying in whole or in part the academic work of another person, plagiarizing in whole or in part the work of another person, to copy in whole or in part the answers to the questions of an examination from another person, making or getting another person to take any oral or written test or examination on their behalf, as well as help or facilitate that another person incurs in said behavior". Section 6.2.2. defines Fraudulent **Conduct** as: "Conduct with intent to defraud, including, but not limited to, malicious alteration or falsification of grades, records, identification cards or other official documents of the University or any other institution. Any act or action of passing or circulating as genuine and true any of the documents specified above will also be subject to disciplinary sanction, knowing that they are false or altered". Any of these actions will be subject to disciplinary sanctions in accordance with the procedure established in the current University of Puerto Rico General Student Regulations. **DISCLAIMER**: The above statement is an English Translation of certain parts Article 6.2 of the General Student Regulations of the University of Puerto Rico (Reglamento General de Estudiantes de la Universidad de Puerto Rico - Cert. JS 154 2010-2011). It was originally prepared by the Deanship of Academic Affairs of the Medical Sciences Campus, and revised and approved by the Academic Senate on March 2, 2017. In case of a discrepancy or disagreement with the original text in Spanish, the Spanish version will always prevail and be given priority.

Approved by the Academic Senate, Certification 049, 2016-2017.

## TITLE IX: NO DISCRIMINATION

The Medical Sciences Campus (MSC) of the University of Puerto Rico (UPR) does not discriminate in its academic offerings because of sex, race, color, age, national origin, political or religious ideas, gender, gender identity or expression, pregnancy, civil status, sexual orientation, ethnic origin or because of being a victim or be perceived as a victim of domestic violence, sexual assault, sexual harassment or stalking. This policy complies with federal statutes under Title IX, as amended, and related the institutional policies of the UPR. It is the duty of every member of

the university community to notify any discrimination or complaint event before the Office of the Title IX Coordinator, telephone 787-758-2525, ext. 1368 or 1360, or accessing the web page www.rcm.upr.edu/tituloix.

Approved by the Academic Senate, Certification 035, 2018-2019, Amended.

## **GRADING SYSTEM:**

100% - 90% = A 89% - 80% = B 79% - 70% = C 69% - 60% = D 59% - 0% = FMinimum criteria: Student must approve the course with 80%, (B) or more.

<sup>17</sup> Descripción del curso en español (que no exceda 1,000 caracteres):

Esta es la segunda parte del curso de Bioestadística para la Investigación en Enfermería. Este curso enfatizará en estadísticas más avanzadas, incluyendo las formas extendidas de análisis de varianza, una variedad de modelos de regresión y análisis de supervivencia a través de conferencias y ejercicios de práctica. Se utilizará un software estadístico para evaluar las asociaciones y la magnitud de las asociaciones entre variables. El curso se impartirá utilizando la modalidad híbrida.

#### Descripción del curso en inglés (que no exceda 1,000 caracteres):

This is the second part of the Biostatistics for Nursing Research course. This course will emphasize in more advanced statistics, including the extended forms of analysis of variance, a variety of regression models and survival analysis, through lectures and practice exercises. Statistical software will be used to assess associations and the magnitude of associations between variables. The course will be taught using hybrid modality.

## **COURSE DESCRIPTION:**

This course integrates hybrid modality to prepare doctoral students in the study of nursing theories, their historical evolution, philosophical underpinnings, and the epistemological contribution to the discipline. The course includes concept analysis, methods, and application. Students will be encouraged to critically think towards the development, use, and evaluation of nursing theories in research and practice. Issues and future trends in the development of nursing theories are explored.

## LEARNING OBJETIVES:

- 1. Analyze the fundamentals of nursing theories, its historical evolution, and epistemological contribution to the discipline.
- 2. Discuss the development of theoretical thinking.
- 3. Distinguish the philosophical foundations of nursing theories.
- 4. Compare concept analysis definitions and components.
- 5. Evaluate methods for concept analysis and its applications.
- 6. Develop a concept analysis related to the research phenomenon of interest.
- 7. Analyze the development of nursing theory.
- 8. Discuss the analysis and evaluation of nursing theories.
- 9. Appraise the use of Nursing theories in research and practice.
- 10. Criticize issues in theory development in Nursing.
- 11. Explore future trends in nursing theory development

## INSTRUCTIONAL STRATEGIES:

- Lectures (synchronous and asynchronous)
- Reflexive discussions forums (synchronous and asynchronous)
- Independent work (group/individual)
- Assigned readings
- Written assignments

All students must participate in weekly discussions and write a brief summary of major ideas learned from assigned readings.

## LEARNING RESOURCES AND MINIMUM FACILITIES AVAILABLE OR REQUIRED:

- Personal computer
- InFocus projector
- Institutional e-mail account
- Internet access
- Blackboard Learn Ultra or the current learning management system adopted by the Medical Sciences Campus
- MSC Library
- Center for Research and Evidence Based-Practice of the School of Nursing

## **EVALUATION TECHNIQUES:**

| ٠ | Active participation in discussion forums | 15% |
|---|-------------------------------------------|-----|
| • | Review of literature for concept analysis | 20% |
| • | Concept analysis paper                    |     |
|   | Critique and evaluation of theory         |     |
| ٠ | Comprehensive exam question               | 10% |

## **REASONABLE MODIFICATION:**

Any student who presents a condition or health situation that qualifies him / her before the law to receive reasonable modification, has the right to make his request in writing in the Office of Services for Students with Disabilities (OSEI), following the procedure established in the document Request for Services and Reasonable Modification. A copy of this document is obtained in the OSEI Office, located on the third floor of the Dr. Guillermo Arbona Irizarry building, office B-349 (next to Medical Services for Students) and on the RCM's website in the Deanship of Students portal. The application does not exempt the student from fulfilling the academic requirements of the study programs.

CIPE - Amended and Updated on 02-07-2018.

## ACADEMIC INTEGRITY:

The University of Puerto Rico promotes the highest standards of academic and scientific integrity. Article 6.2 of the University of Puerto Rico General Student Regulations (Board of Trustees Certification 154 2010-2011) in section 6.2.1 defines **Academic Dishonesty** 

as: "Any form of dishonesty or lack of academic integrity, including, but not limited to, fraudulent actions, obtaining grades or degrees using false or fraudulent simulations, copying in whole or in part the academic work of another person, plagiarizing in whole or in part the work of another person, to copy in whole or in part the answers to the questions of an examination from another person, making or getting another person to take any oral or written test or examination on their behalf, as well as help or facilitate that another person incurs in said behavior". Section 6.2.2. defines Fraudulent Conduct as: "Conduct with intent to defraud, including, but not limited to, malicious alteration or falsification of grades, records, identification cards or other official documents of the University or any other institution. Any act or action of passing or circulating as genuine and true any of the documents specified above will also be subject to disciplinary sanction, knowing that they are false or altered". Any of these actions will be subject to disciplinary sanctions in accordance with the procedure established in the current University of Puerto Rico General Student Regulations. **DISCLAIMER**: The above statement is an English Translation of certain parts Article 6.2 of the General Student Regulations of the University of Puerto Rico (Reglamento General de Estudiantes de la Universidad de Puerto Rico - Cert. JS 154 2010-2011). It was originally prepared by the Deanship of Academic Affairs of the Medical Sciences Campus, and revised and approved by the Academic Senate on March 2, 2017. In case of a discrepancy or disagreement with the original text in Spanish, the Spanish version will always prevail and be given priority.

Approved by the Academic Senate, Certification 049, 2016-2017.

#### TITLE IX: NO DISCRIMINATION

The Medical Sciences Campus (MSC) of the University of Puerto Rico (UPR) does not discriminate in its academic offerings because of sex, race, color, age, national origin, political or religious ideas, gender, gender identity or expression, pregnancy, civil status, sexual orientation, ethnic origin or because of being a victim or be perceived as a victim of domestic violence, sexual assault, sexual harassment or stalking. This policy complies with federal statutes under Title IX, as amended, and related the institutional policies of the UPR. It is the duty of every member of the university community to notify any discrimination or complaint event before the Office of the Title IX Coordinator, telephone 787-758-2525, ext. 1368 or 1360, or accessing the web page <a href="https://www.rcm.upr.edu/tituloix">www.rcm.upr.edu/tituloix</a>. Approved by the Academic Senate, Certification 035, 2018-2019, Amended.

**GRADING SYSTEM:** Academic achievement will be measured by the Grading System as followed: (A, B, C, D y F).

100% - 90% = A89% - 80% = B79% - 70% = C69% - 60% = D59% - 0% = F

Minimum criteria: Student must pass the course with 80%, (B) or more.

#### **BIBLIOGRAPHY:**

\*\*Nursing knowledge advances continually and new nursing knowledge is disseminated via journals and other publications. In addition to assigned readings, students are expected to develop their own bibliography of readings that are current in the individual topics under study according to personal interest and need.

## **COURSE DESCRIPTION:**

This course will give students the opportunity to study measurement theories. Students will be exposed to a set of experiences related to the inductive and deductive process for constructing and testing instruments. Issues pertaining to the construction of instruments, development and use of scales, tests, inventories, and the importance of conducting pilot studies for validation and reliability will also be discussed. Students will develop or evaluate an instrument that measures one of the constructs related to their research interest and will submit it to validation and reliability testing. The course will be taught using hybrid modality.

#### LEARNING OBJETIVES:

- 1. Review measurement theories.
- 2. Evaluate issues pertaining to the construction of instruments, scales, tests, and inventories.
- 3. Analyze measurement issues and methods for dealing with psychometric properties of instruments.
- 4. Evaluate the measurement tools available to determine their adoption, adaptation or construction of a new one.
- 5. Develop instrument pertaining to their research interest.

#### **INSTRUCTIONAL STRATEGIES:**

- Lectures (synchonous and asynchronous)
- Discussion forums (synchronous and asynchronous)
- Cooperative learning
- Practice workshops
- Independent work in the process of instrument development or adaptation

#### LEARNING RESOURCES AND MINIMUM FACILITIES AVAILABLE OR REQUIRED:

- Statistical software
- Personal computer
- InFocus projector
- Internet access
- Institutional email account
- Blackboard Learn Ultra or the current learning management system adopted by the Medical Sciences Campus
- MSC Library
- Center for Research and Evidence-Based Practice of the School of Nursing

## **EVALUATION TECHNIQUES:**

- Students will demonstrate knowledge about types of instruments, their construction and strategies to establish validity and reliability, through
- Students will submit a portfolio with several different entries of writing
- Students will submit an instrument built on a theoretical framework

## **REASONABLE MODIFICATION:**

Any student who presents a condition or health situation that qualifies him / her before the law to receive reasonable modification, has the right to make his request in writing in the Office of Services for Students with Disabilities (OSEI), following the procedure established in the document Request for Services and Reasonable Modification. A copy of this document is obtained in the OSEI Office, located on the third floor of the Dr. Guillermo Arbona Irizarry building, office B-349 (next to Medical Services for Students) and on the RCM's website in the Deanship of Students portal. The application does not exempt the student from fulfilling the academic requirements of the study programs.

#### **ACADEMIC INTEGRITY:**

The University of Puerto Rico promotes the highest standards of academic and scientific integrity. Article 6.2 of the University of Puerto Rico General Student Regulations (Board of Trustees Certification 154 2010-2011) in section 6.2.1 defines Academic Dishonesty as: "Any form of dishonesty or lack of academic integrity, including, but not limited to, fraudulent actions, obtaining grades or degrees using false or fraudulent simulations, copying in whole or in part the academic work of another person, plagiarizing in whole or in part the work of another person, to copy in whole or in part the answers to the questions of an examination from another person, making or getting another person to take any oral or written test or examination on their behalf, as well as help or facilitate that another person incurs in said behavior". Section 6.2.2. defines Fraudulent Conduct as: "Conduct with intent to defraud, including, but not limited to, malicious alteration or falsification of grades, records, identification cards or other official documents of the University or any other institution. Any act or action of passing or circulating as genuine and true any of the documents specified above will also be subject to disciplinary sanction. knowing that they are false or altered". Any of these actions will be subject to disciplinary sanctions in accordance with the procedure established in the current University of Puerto Rico General Student Regulations. **DISCLAIMER**: The above statement is an English Translation of certain parts Article 6.2 of the General Student Regulations of the University of Puerto Rico (Reglamento General de Estudiantes de la Universidad de Puerto Rico - Cert. JS 154 2010-2011). It was originally prepared by the Deanship of Academic Affairs of the Medical Sciences Campus, and revised and approved by the Academic Senate on March 2, 2017. In case of a discrepancy or disagreement with the original text in Spanish, the Spanish version will always prevail and be given priority.

Approved by the Academic Senate, Certification 049, 2016-2017.

CIPE - Amended and Updated on 02-07-2018.

## TITLE IX: NO DISCRIMINATION

The Medical Sciences Campus (MSC) of the University of Puerto Rico (UPR) does not discriminate in its academic offerings because of sex, race, color, age, national origin, political or religious ideas, gender, gender identity or expression, pregnancy, civil status, sexual orientation, ethnic origin or because of being a victim or be perceived as a victim of domestic violence, sexual assault, sexual harassment or stalking. This policy complies with federal statutes under Title IX, as amended, and related the institutional policies of the UPR. It is the duty of every member of the university community to notify any discrimination or complaint event before the Office of the Title IX Coordinator, telephone 787-758-2525, ext. 1368 or 1360, or accessing the web page www.rcm.upr.edu/tituloix.

Approved by the Academic Senate, Certification 035, 2018-2019, Amended.

## **GRADING SYSTEM:**

100% - 90% = A 89% - 80% = B 79% - 70% = C 69% - 60% = D 59% - 0% = F

Minimum criteria: Student must pass the course with 80%, (B) or more.

| DESCRIPCION ANTERIOR EN INGLES<br>This course will give students the opportunity to study measurement<br>theories. Students will be exposed to a set of experiences related to<br>the inductive and deductive process for constructing and testing<br>instruments. Issues pertaining to the construction of instruments,<br>development and use of scales, tests, inventories and the importance<br>of conducting pilot studies for validation and reliability will also be<br>discussed. Students will develop or evaluate an instrument that<br>measures one of the constructs related to their research interest and<br>will submit it to validation and reliability testing. |                   | NUEVA DESCRIPCIÓN EN INGLÉS<br>This course will give students the opportunity to study measurement<br>theories. # **COURSE DESCRIPTION:**

In this course, the student will identify a research problem that can be studied using a deductive or inductive approach. Students will organize and present the knowledge gained through literature review of what is known about their research problem. The student will select a theoretical model that can help answer their research questions. The course will be taught using hybrid modality.

### LEARNING OBJETIVES:

- 1. Critically analyze literature in order to identify a nursing research problem.
- 2. Identify literature gaps, unresolved issues, conflicting or contradictory findings, deficiencies in the research studies reviewed, or potential angles.
- 3. Formulate research question(s) problem statement that has the potential to be answered by the proposed related to nursing science.
- 4. Analyze a theoretical method to guide the proposed research question(s).

# COURSE MAIN TEXTBOOK:

Creswell, J.W. (2018). *Research design: Qualitative, quantitative, and mixed method approaches* (5<sup>th</sup> ed.). Sage Publications, Inc. Print ISBN: 9781506386706, eText ISBN: 9781506386690

# CONTENT OUTLINE AND TIME DISTRIBUTION:

| I.   | <ul> <li>Research Problem</li> <li>A. Discussion about topic or phenomenon of<br/>interest for research</li> <li>B. Evaluation of research problems with respect to<br/>relevance for nursing discipline, susceptibility,<br/>and viability from different paradigms</li> <li>C. Formulation, delimitation, and writing the<br/>research problem</li> <li>D. Research purpose</li> <li>E. Conceptual and operational definitions</li> </ul> | 4 hrs. distance<br>8 hrs. face-to-face |

INSTRUCTIONAL STRATEGIES:

- Lectures (synchronous or asynchronous)
- Reflexive discussions about selected topics related to proposal development (face-to-face or asynchronous discussion forums)
- Individual mentoring and sessions between student and professor and/or mentor (face-to-face or videoconference)
- Independent study where student will work on their research proposal

# LEARNING RESOURCES AND MINIMUM FACILITIES AVAILABLE OR REQUIRED:

- DNS Dissertation Manual and Research Proposal Guidelines for Quantitative, Qualitative and Mixed Methodologies
- Guest speakers
- Personal computer

32 hrs. face-to-face

- InFocus projector
- Internet access
- Blackboard Learn Ultra or the current learning management system adopted by the Medical Sciences Campus
- MSC Library
- Center for Research and Evidence-Based Practice of the School of Nursing

# **EVALUATION TECHNIQUES:**

Review of the writing process during coordinated meetings between the course professor and students. Each student must meet a minimum of three times with their mentor.

- Practice exercises and participation in group discussions......10%
- Homework......10%
- Writing Chapters 1 and 2 of the proposal ......65%
- Oral presentation of Chapters 1 and 2.....15%

### **REASONABLE MODIFICATION:**

Any student who presents a condition or health situation that qualifies him / her before the law to receive reasonable modification, has the right to make his request in writing in the Office of Services for Students with Disabilities (OSEI), following the procedure established in the document Request for Services and Reasonable Modification. A copy of this document is obtained in the OSEI Office, located on the third floor of the Dr. Guillermo Arbona Irizarry building, office B-349 (next to Medical Services for Students) and on the RCM's website in the Deanship of Students portal. The application does not exempt the student from fulfilling the academic requirements of the study programs.

CIPE - Amended and Updated on 02-07-2018.

### ACADEMIC INTEGRITY:

The University of Puerto Rico promotes the highest standards of academic and scientific integrity. Article 6.2 of the University of Puerto Rico General Student Regulations (Board of Trustees Certification 154 2010-2011) in section 6.2.1 defines Academic Dishonesty as: "Any form of dishonesty or lack of academic integrity, including, but not limited to, fraudulent actions, obtaining grades or degrees using false or fraudulent simulations, copying in whole or in part the academic work of another person, plagiarizing in whole or in part the work of another person, to copy in whole or in part the answers to the questions of an examination from another person, making or getting another person to take any oral or written test or examination on their behalf, as well as help or facilitate that another person incurs in said behavior". Section 6.2.2. defines Fraudulent Conduct as: "Conduct with intent to defraud, including, but not limited to, malicious alteration or falsification of grades, records, identification cards or other official documents of the University or any other institution. Any act or action of passing or circulating as genuine and true any of the documents specified above will also be subject to disciplinary sanction, knowing that they are false or altered". Any of these actions will be subject to disciplinary sanctions in accordance with the procedure established in the current University of Puerto Rico General Student Regulations. **DISCLAIMER**: The above statement is an English Translation of certain parts Article 6.2 of the General Student Regulations of the University of Puerto Rico (*Reglamento General de Estudiantes de la Universidad de Puerto Rico – Cert. JS 154 2010-2011*). It was originally prepared by the Deanship of Academic Affairs of the Medical Sciences Campus, and revised and approved by the Academic Senate on March 2, 2017. In case of a discrepancy or disagreement with the original text in Spanish, the Spanish version will always prevail and be given priority.

Approved by the Academic Senate, Certification 049, 2016-2017.

# TITLE IX: NO DISCRIMINATION

The Medical Sciences Campus (MSC) of the University of Puerto Rico (UPR) does not discriminate in its academic offerings because of sex, race, color, age, national origin, political or religious ideas, gender, gender identity or expression, pregnancy, civil status, sexual orientation, ethnic origin or because of being a victim or be perceived as a victim of domestic violence, sexual assault, sexual harassment or stalking. This policy complies with federal statutes under Title IX, as amended, and related the institutional policies of the UPR. It is the duty of every member of the university community to notify any discrimination or complaint event before the Office of the Title IX Coordinator, telephone 787-758-2525, ext. 1368 or 1360, or accessing the web page <a href="https://www.rcm.upr.edu/tituloix">www.rcm.upr.edu/tituloix</a>.

Approved by the Academic Senate, Certification 035, 2018-2019, Amended.

# **GRADING SYSTEM:**

100% - 90% = A89% - 80% = B79% - 70% = C69% - 60% = D59% - 0% = F

Minimum criteria: Student must pass the course with 80%, (B) or more.

# COURSE DESCRIPTION:

This course gives students the opportunity to analyze options and settings where they may perform the role of a nurse researcher once they have completed the doctoral program. The students will be able to plan his/her research career trajectory by establishing short- and long-term goals and objectives as well as the specific strategies necessary to achieve them. They will also evaluate the relevancy of research in the interprofessional context. Students will be exposed to diverse methods of dissemination of research findings, including the preparation of abstracts and poster presentations for scientific forums, and manuscript writing to publish in peer-reviewed journals. Students will also perform searches for external funding utilizing formats established by various government and private organizations and foundations. The course will be taught using hybrid modality.

### LEARNING OBJETIVES:

At the end of the course the doctoral student will be able to:

- 1. Propose ideas related to his/her future role as a researcher in the academy or other scenarios.
- 2. Design a plan focused on his/her professional goals and areas of research interest for the next 3-5 years, after selecting an appropriate mentor.
- 3. Create effective summaries, posters or presentations for scientific conferences.
- 4. Explain the components, forms and procedures for submitting proposals to various entities (federal, governmental, foundations, private agencies, and others).

# **INSTRUCTIONAL STRATEGIES:**

- Lectures (synchonous and asynchronous)
- Oral presentations
- Discussion forums (synchronous and asynchronous)
- Cooperative learning
- Workshops

# LEARNING RESOURCES AND MINIMUM FACILITIES AVAILABLE OR REQUIRED:

- Guest speakers
- Online training
- Center for Research and Evidence-Based Practice of the School of Nursing
- Personal Computer
- InFocus projector
- Institutional e-mail Account
- Blackboard Ultra Learning Management System or the current platform adopted by the Medical Sciences Campus
- MSC Library

# **EVALUATION TECHNIQUES:**

| Online course: Developing Nursing Scientists                             | 5%  |
|--------------------------------------------------------------------------|-----|
| Individual Research Career Development Plan (IDP)                        |     |
| Concept Paper                                                            | 25% |
| Essay and oral presentation mentor/mentee                                | 25% |
| • Development of a summary and professional poster for scientific forums | 20% |

# **REASONABLE MODIFICATION:**

Any student who presents a condition or health situation that qualifies him / her before the law to receive reasonable modification, has the right to make his request in writing in the Office of Services for Students with Disabilities (OSEI), following the procedure established in the document Request for Services and Reasonable Modification. A copy of this document is obtained in the OSEI Office, located on the third floor of the Dr. Guillermo Arbona Irizarry building, office B-349 (next to Medical Services for Students) and on the RCM's website in the Deanship of Students portal. The application does not exempt the student from fulfilling the academic requirements of the study programs.

CIPE - Amended and Updated on 02-07-2018.

# ACADEMIC INTEGRITY:

The University of Puerto Rico promotes the highest standards of academic and scientific integrity. Article 6.2 of the University of Puerto Rico General Student Regulations (Board of Trustees Certification 154 2010-2011) in section 6.2.1 defines **Academic Dishonesty** as: "Any form of dishonesty or lack of academic integrity, including, but not limited to, fraudulent actions, obtaining grades or degrees using false or fraudulent simulations, copying in whole or in part the academic work of another person, plagiarizing in whole or in part the work of another person, to copy in whole or in part the answers to the questions of an examination from another person, making or getting another person to take any oral or written test or examination on their behalf, as well as help or facilitate that another person incurs in said behavior". Section 6.2.2. defines **Fraudulent Conduct** as: "Conduct with intent to defraud, including, but not limited to, malicious alteration or falsification of grades, records, identification cards or other official documents of the University or any other institution. Any act or action of passing or circulating as genuine and true any of the documents specified above will also be subject to disciplinary sanction, knowing that they are false or altered". Any of these actions will be subject to disciplinary sanctions in

accordance with the procedure established in the current University of Puerto Rico General Student Regulations. **DISCLAIMER**: The above statement is an English Translation of certain parts Article 6.2 of the General Student Regulations of the University of Puerto Rico (Reglamento General de Estudiantes de la Universidad de Puerto Rico – Cert. JS 154 2010-2011). It was originally prepared by the Deanship of Academic Affairs of the Medical Sciences Campus, and revised and approved by the Academic Senate on March 2, 2017. In case of a discrepancy or disagreement with the original text in Spanish, the Spanish version will always prevail and be given priority.

Approved by the Academic Senate, Certification 049, 2016-2017.

# TITLE IX: NO DISCRIMINATION

The Medical Sciences Campus (MSC) of the University of Puerto Rico (UPR) does not discriminate in its academic offerings because of sex, race, color, age, national origin, political or religious ideas, gender, gender identity or expression, pregnancy, civil status, sexual orientation, ethnic origin or because of being a victim or be perceived as a victim of domestic violence, sexual assault, sexual harassment or stalking. This policy complies with federal statutes under Title IX, as amended, and related the institutional policies of the UPR. It is the duty of every member of the university community to notify any discrimination or complaint event before the Office of the Title IX Coordinator, telephone 787-758-2525, ext. 1368 or 1360, or accessing the web page www.rcm.upr.edu/tituloix.

Approved by the Academic Senate, Certification 035, 2018-2019, Amended.

# **GRADING SYSTEM:**

Minimum criteria: Student must pass the course with 80%, (B) or more.

Los estudiantes la oportunidad de analizar opciones y escenarios para ejercer el rol de enfermero investigador una vez culmine el programa doctoral. Los estudiantes estarán capacitados/as para planificar su trayectoria en la investigación estableciendo metas y objetivos de corto y largo alcance y las estrategias específicas para lograrlo. Evaluará la                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | [ ] Título en inglés                                                |                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  |  |

| Este curso provee a las/os estudiantes la oportunidad de analizar<br>opciones y escenarios para ejercer el rol de enfermero/a<br>investigador/a una vez culmine el programa doctoral. Los estudiantes<br>estarán capacitados/as para planificar su trayectoria en la<br>investigación estableciendo metas y objetivos de corto y largo<br>alcance y las estrategias específicas para lograrlo. Evaluará la                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                     |                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |  |  |

#### NUEVA DESCRIPCIÓN EN INGLÉS **DESCRIPCIÓN ANTERIOR EN INGLÉS** This course gives students the opportunity to analyze options and This course gives students the opportunity to analyze options and settings where they may perform the role of a nurse researcher once settings where they may perform the role of a nurse researcher once they have completed the doctoral program. The students will be able they have completed the doctoral program. The students will be able to plan his/her research career trajectory by establishing short and to plan his/her research career trajectory by establishing short- and long term goals and objectives as well as the specific strategies long-term goals and objectives as well as the specific strategies necessary to achieve them. They will also evaluate the relevancy of necessary to achieve them. They will also evaluate the relevancy of research in the inter-professional context. Students will be exposed to research in the inter-professional context. Students will be exposed to diverse methods of dissemination of research findings, including the diverse methods of dissemination of research findings, including the preparation of abstracts and poster presentations for scientific forums, preparation of abstracts and poster presentations for scientific forums, and manuscript writing to publish in peer-reviewed journals. Students and manuscript writing to publish in peer-reviewed journals. Students will also perform searches for external funding utilizing formats will also perform searches for external funding utilizing formats established by various government and private organizations and established by various government and private organizations and foundations. The course will be taught using hybrid modality. foundations.

#### JUSTIFICACIÓN DE LOS CAMBIOS:

El cambio en la descripción consistió en añadir la modalidad del curso a híbrida.

#### FECHA DE EFECTIVIDAD DE LOS CAMBIOS: Agosto 2021

# **COURSE DESCRIPTION:**

In this seminar, students will analyze and deliberate about the advancements in nursing science from a scientific knowledge and social recognition perspective. Students will analyze the role of nursing in the development of policies in the areas of service providing, work setting, government, organizations, and the community. The social, economic, legal, bioethical and technological impact on health policy from a local, national, and global perspective will be studied. It is expected that students will develop a public policy project that can be presented in the appropriate forums. The course will be taught using hybrid modality.

# LEARNING OBJETIVES:

- 1. Analyze advances in nursing science and how these have contributed to the profession.
- 2. Evaluate the relationship between nursing, health policy and health services administration.
- 3. Discuss the implications of new challenges, trends and the nursing agenda, the economy and ethics, in public health policy for different society sectors.
- 4. Analyze major trends and current issues in national health policy and the standards of nursing practice.
- 5. Analyze the role of interest groups, elected and appointed officials and other actors in formulating, implementing and revising health policy.
- 6. Evaluate the process, stages and strategies for the establishment of public policy.
- 7. Analyze conflict management in public policy and implications for nursing.

- 8. Analyze the ethical and legal dimensions of public policy of health practice and nursing.
- 9. Argue about the role of professional nursing in the professional organization for the development of public policy.
- 10. Create a public policy project for a nursing controversy in the politic setting: healthcare access, in the workplace, in the government, organization or in the community.

# **COURSE MAIN TEXTBOOK:**

None

| VI.   | Role of nursing in the development of public policy,<br>experiences as legislators, agenda officials, political<br>leaders, and client advocates | 4 hrs. distance                                       |
| V.    | Legislations and regulations that affect nursing practice, working class and nursing environment                                                 | 4 hrs. face-to-face                                   |
| IV.   | Creation of coalitions for successful public policy                                                                                              | 4 hrs. distance                                       |
| III.  | Process of development, strategies and analysis of public policy                                                                                 | 6 hrs. distance                                       |
| II.   | Social, economic and technological changes, ethics and their impact in the establishment of public policy                                        | 2 hrs. distance                                       |
| ١.    | Historical perspectives of public policy and nursing                                                                                             | 2 hrs. face-to-face                                   |

### **INSTRUCTIONAL STRATEGIES:**

- Lectures (synchronous and asynchronous)
- Discussion forums (synchronous and asynchronous)
- Practice experience in a legislative forum, professional organization or community where a public policy project is on the agenda.
- Guest speakers

# LEARNING RESOURCES AND MINIMUM FACILITIES AVAILABLE OR REQUIRED:

- Personal computer
- InFocus projector
- Internet access
- Institutional email account
- Blackboard Learn Ultra or the current learning management system adopted by the Medical Sciences Campus
- MSC Library

# **EVALUATION TECHNIQUES:**

| • | Argumentative essay evaluated by rubric                                     | 20% |
|---|-----------------------------------------------------------------------------|-----|
|   | Understand process and strategies for development of public policy (visit). |     |
| • | Literature review to support written public policy project                  | 25% |
| • | Written public policy pre-project                                           | 25% |
| • | Attendance                                                                  | 10% |

# **REASONABLE MODIFICATION:**

Any student who presents a condition or health situation that qualifies him / her before the law to receive reasonable modification, has the right to make his request in writing in the Office of Services for Students with Disabilities (OSEI), following the procedure established in the document Request for Services and Reasonable Modification. A copy of this document is obtained in the OSEI Office, located on the third floor of the Dr. Guillermo Arbona Irizarry building, office B-349 (next to Medical Services for Students) and on the RCM's website in the Deanship of Students portal. The application does not exempt the student from fulfilling the academic requirements of the study programs.

CIPE - Amended and Updated on 02-07-2018.

# ACADEMIC INTEGRITY:

The University of Puerto Rico promotes the highest standards of academic and scientific integrity. Article 6.2 of the University of Puerto Rico General Student Regulations (Board of Trustees Certification 154 2010-2011) in section 6.2.1 defines Academic Dishonesty as: "Any form of dishonesty or lack of academic integrity, including, but not limited to, fraudulent actions, obtaining grades or degrees using false or fraudulent simulations, copying in whole or in part the academic work of another person, plagiarizing in whole or in part the work of another person, to copy in whole or in part the answers to the questions of an examination from another person, making or getting another person to take any oral or written test or examination on their behalf, as well as help or facilitate that another person incurs in said behavior". Section 6.2.2. defines Fraudulent Conduct as: "Conduct with intent to defraud, including, but not limited to, malicious alteration or falsification of grades, records, identification cards or other official documents of the University or any other institution. Any act or action of passing or circulating as genuine and true any of the documents specified above will also be subject to disciplinary sanction, knowing that they are false or altered". Any of these actions will be subject to disciplinary sanctions in accordance with the procedure established in the current University of Puerto Rico General Student Regulations. **DISCLAIMER**: The above statement is an English Translation of certain parts Article 6.2 of the General Student Regulations of the University of Puerto Rico (Reglamento General de Estudiantes de la Universidad de Puerto Rico – Cert. JS 154 2010-2011). It was originally prepared by the Deanship of Academic Affairs of the Medical Sciences Campus, and revised and approved by the Academic Senate on March 2, 2017. In case of a discrepancy or disagreement with the original text in Spanish, the Spanish version will always prevail and be given priority. Approved by the Academic Senate, Certification 049, 2016-2017.

# TITLE IX: NO DISCRIMINATION

The Medical Sciences Campus (MSC) of the University of Puerto Rico (UPR) does not discriminate in its academic offerings because of sex, race, color, age, national origin, political or religious ideas, gender, gender identity or expression, pregnancy, civil status, sexual orientation, ethnic origin or because of being a victim or be perceived as a victim of domestic violence, sexual assault, sexual harassment or stalking. This policy complies with federal statutes under Title IX, as amended, and related the institutional policies of the UPR. It is the duty of every member of the university community to notify any discrimination or complaint event before the Office of the Title IX Coordinator, telephone 787-758-2525, ext. 1368 or 1360, or accessing the web page www.rcm.upr.edu/tituloix. Approved by the Academic Senate, Certification 035, 2018-2019, Amended.

### **GRADING SYSTEM:**

100% - 90% = A 89% - 80% = B 79% - 70% = C 69% - 60% = D 59% - 0% = F

Minimum criteria: Student must pass the course with 80%, (B) or more.

| En este seminario, los estudiantes analizarán y deliberarán sobre los<br>avances en la ciencia de la enfermería desde una perspectiva de<br>conocimiento científico y el reconocimiento social. Los estudiantes<br>analizarán el papel de la enfermería en el desarrollo de políticas en<br>las áreas de servicio, en escenarios de trabajo, el gobierno, las<br>organizaciones y la comunidad. Se estudiará el impacto social,<br>económico, jurídico, bioético y tecnológico en materia de política de<br>salud desde una perspectiva local, nacional y global. Se espera que<br>los estudiantes formulen un proyecto de política pública que se<br>pueda presentar en los foros apropiados. |                                                                                                                 | En este seminario, los estudiantes analizarán y deliberarán sobre los<br>avances en la ciencia de la enfermería desde una perspectiva de<br>conocimiento científico y el reconocimiento social. | In this seminar, students will analyze and deliberate about the<br>advancements in nursing science from a scientific knowledge and<br>social recognition perspective. Students will analyze the role of<br>nursing in the development of policies in the areas of service<br>providing, work setting, government, organizations and the<br>community. The social, economic, legal, bioethical and technological<br>impact on health policy from a local, national and global perspective<br>will be studied. It is expected that students will formulate a public<br>policy project that can be presented in the appropriate forums. |                        | In this seminar, students will analyze and deliberate about the<br>advancements in nursing science from a scientific knowledge and<br>social recognition perspective. # **COURSE DESCRIPTION:**

Students through independent studies, mentoring, and seminars will design the methodology of their research proposal that adheres to qualitative, quantitative, or mixed-method standards. In this course, students will take the comprehensive exam and will select their Dissertation Committee. The course will be taught using hybrid modality.

# LEARNING OBJETIVES:

- 1. Synthesize information related to the research phenomenon and develop the methodology section of the research proposal with a qualitative, quantitative or mixed-method design.
- 2. Design a data collection plan with its appropriate methods, techniques, and instruments.
- 3. Design a data or information analysis plan based on the qualitative, quantitative or mixed methodology selected.

### INSTRUCTIONAL STRATEGIES:

- Reflexive discussions about selected topics related to proposal development (face-to-face and asynchronous discussion forums)
- Individual mentoring and sessions between student and professor and/or mentor (face-to-face or videoconference)
- Independent work where student will work on their research proposal

# LEARNING RESOURCES AND MINIMUM FACILITIES AVAILABLE OR REQUIRED:

- DNS Dissertation Manual and Research Proposal Guidelines for Quantitative, Qualitative and Mixed Methodologies
- Guest speakers
- Personal computer
- Qualitative and/or qualitative analysis software

- InFocus projector
- Internet access
- Blackboard Learn Ultra or the current learning management system or video meeting application adopted by the Medical Sciences Campus
- MSC Library
- Center for Research and Evidence-Based Practice of the School of Nursing

### **EVALUATION TECHNIQUES:**

| • | Participation in group discussions and workshops                    | 10% |
|---|---------------------------------------------------------------------|-----|
| • | Homework                                                            | 10% |
| • | Quality of written proposal, which will be determined by a standard |     |
|   | procedures document, developed for this purpose                     | 65% |
| • | Oral presentation of research proposal                              | 15% |

# **REASONABLE MODIFICATION:**

Any student who presents a condition or health situation that qualifies him / her before the law to receive reasonable modification, has the right to make his request in writing in the Office of Services for Students with Disabilities (OSEI), following the procedure established in the document Request for Services and Reasonable Modification. A copy of this document is obtained in the OSEI Office, located on the third floor of the Dr. Guillermo Arbona Irizarry building, office B-349 (next to Medical Services for Students) and on the RCM's website in the Deanship of Students portal. The application does not exempt the student from fulfilling the academic requirements of the study programs.

CIPE - Amended and Updated on 02-07-2018.

### ACADEMIC INTEGRITY:

The University of Puerto Rico promotes the highest standards of academic and scientific integrity. Article 6.2 of the University of Puerto Rico General Student Regulations (Board of Trustees Certification 154 2010-2011) in section 6.2.1 defines Academic Dishonesty as: "Any form of dishonesty or lack of academic integrity, including, but not limited to, fraudulent actions, obtaining grades or degrees using false or fraudulent simulations, copying in whole or in part the academic work of another person, plagiarizing in whole or in part the work of another person, to copy in whole or in part the answers to the questions of an examination from another person, making or getting another person to take any oral or written test or examination on their behalf, as well as help or facilitate that another person incurs in said behavior". Section 6.2.2. defines Fraudulent Conduct as: "Conduct with intent to defraud, including, but not limited to, malicious alteration or falsification of grades, records, identification cards or other official documents of the University or any other institution. Any act or action of passing or circulating as genuine and true any of the documents specified above will also be subject to disciplinary sanction, knowing that they are false or altered". Any of these actions will be subject to disciplinary sanctions in accordance with the procedure established in the current University of Puerto Rico General Student Regulations. DISCLAIMER: The above statement is an English Translation of certain parts Article 6.2 of the General Student Regulations of the University of Puerto Rico (Reglamento General de Estudiantes de la Universidad de

*Puerto Rico – Cert. JS 154 2010-2011*). It was originally prepared by the Deanship of Academic Affairs of the Medical Sciences Campus, and revised and approved by the Academic Senate on March 2, 2017. In case of a discrepancy or disagreement with the original text in Spanish, the Spanish version will always prevail and be given priority. Approved by the Academic Senate, Certification 049, 2016-2017.

# TITLE IX: NO DISCRIMINATION

The Medical Sciences Campus (MSC) of the University of Puerto Rico (UPR) does not discriminate in its academic offerings because of sex, race, color, age, national origin, political or religious ideas, gender, gender identity or expression, pregnancy, civil status, sexual orientation, ethnic origin or because of being a victim or be perceived as a victim of domestic violence, sexual assault, sexual harassment or stalking. This policy complies with federal statutes under Title IX, as amended, and related the institutional policies of the UPR. It is the duty of every member of the university community to notify any discrimination or complaint event before the Office of the Title IX Coordinator, telephone 787-758-2525, ext. 1368 or 1360, or accessing the web page www.rcm.upr.edu/tituloix.

Approved by the Academic Senate, Certification 035, 2018-2019, Amended.

## **GRADING SYSTEM:**

100% - 90% = A89% - 80% = B79% - 70% = C69% - 60% = D59% - 0% = F

Minimum criteria: Student must pass the course with 80%, (B) or more and pass the comprehensive examination in all its parts.

Los estudiantes a través del estudio independiente, tutoría, y seminarios, seleccionarán un constructo teórico que puede ayudar a contestar su pregunta de investigación ya sea en forma cuantitativa o cualitativa. Luego, diseñarán un estudio adecuado donde aplicarán modelos cualitativos, cuantitativos o mixtos estándares con el fin de examinar la relación entre los conceptos y su pregunta de investigación. Los estudiantes también elegirán su comité de disertación.

Los estudiantes a través de estudios independientes, mentoría y seminarios diseñarán la metodología de su propuesta de investigación que cumpla con los estándares cualitativos, cuantitativos o de métodos mixtos. En este curso, los estudiantes tomarán el examen comprensivo y seleccionarán su Comité de Disertación. El curso se impartirá utilizando la modalidad híbrida.

# COURSE DESCRIPTION:

This course focuses on the mixed methods research to address research questions employing the combination of both quantitative and qualitative approaches. A theoretical understanding of mixed methods will introduce students in the philosophical assumptions and components of mixed method procedures to explore and explain complex phenomena in nursing and health care scenarios. This approach will provide students the opportunity to develop an innovative research design that will contribute to a comprehensive understanding of the phenomenon of interest. The course will be taught using hybrid modality.

# LEARNING OBJETIVES:

- 1. Design a mixed-methods research methodology considering the philosophical theoretical and scientific knowledge.
- 2. Integrate the knowledge of quantitative and qualitative methods to address a research question in a mixed method approach.
- 3. Judge the applicability of a mixed method approach for the phenomenon of interest after critically analyzing mixed methods research.
- 4. Propose a mixed method research design for a phenomenon of interest after analyzing values strengths and weakness of studies and its contribution.
- 5. Value the mixed methods research to advance nursing science.

# COURSE MAIN TEXTBOOK:

Creswell, J.W. & Plano Clark, V.L. (2018). *Designing and conducting mixed methods research* (3<sup>rd</sup> ed.). Sage Publications, Inc.

# CONTENT OUTLINE AND TIME DISTRIBUTION:

| I.   | Historical, philosophical, and theoretical foundation of mixed methods                                                                                                                                                                                                                                                                                                                    | 3 hrs. face-to-face                    |  |

3 hrs. distance

> Total: (54 hr) 27 hrs. distance 27 hrs. face-to-face

### **INSTRUCTIONAL STRATEGIES:**

- Lectures (synchronous and asynchronous)
- Discussion forums (synchronous and asynchronous)
- Independent work
- Assigned readings
- Research article critical appraisals

# LEARNING RESOURCES AND MINIMUM FACILITIES AVAILABLE OR REQUIRED:

- Guest speakers
- Personal computer
- Statistical software
- InFocus projector
- Institutional e-mail account
- Internet access
- Blackboard Learn Ultra or the current learning management system adopted by the Medical Sciences Campus
- MSC Library
- Center for Research and Evidence-Based Practice of the School of Nursing

# **EVALUATION TECHNIQUES:**

- Oral presentation of the mixed methods methodology ......15%

### **REASONABLE MODIFICATION:**

Any student who presents a condition or health situation that qualifies him / her before the law to receive reasonable modification, has the right to make his request in writing in the Office of Services for Students with Disabilities (OSEI), following the procedure established in the document Request for Services and Reasonable Modification. A copy of this document is obtained in the OSEI Office, located on the third floor of the Dr. Guillermo Arbona Irizarry building, office B-349 (next to Medical Services for Students) and on the RCM's website in the Deanship of Students portal. The application does not exempt the student from fulfilling the academic requirements of the study programs.

CIPE - Amended and Updated on 02-07-2018.

## ACADEMIC INTEGRITY:

The University of Puerto Rico promotes the highest standards of academic and scientific integrity. Article 6.2 of the University of Puerto Rico General Student Regulations (Board of Trustees Certification 154 2010-2011) in section 6.2.1 defines Academic Dishonesty as: "Any form of dishonesty or lack of academic integrity, including, but not limited to, fraudulent actions, obtaining grades or degrees using false or fraudulent simulations, copying in whole or in part the academic work of another person, plagiarizing in whole or in part the work of another person, to copy in whole or in part the answers to the questions of an examination from another person, making or getting another person to take any oral or written test or examination on their behalf, as well as help or facilitate that another person incurs in said behavior". Section 6.2.2. defines Fraudulent Conduct as: "Conduct with intent to defraud, including, but not limited to, malicious alteration or falsification of grades, records, identification cards or other official documents of the University or any other institution. Any act or action of passing or circulating as genuine and true any of the documents specified above will also be subject to disciplinary sanction, knowing that they are false or altered". Any of these actions will be subject to disciplinary sanctions in accordance with the procedure established in the current University of Puerto Rico General Student Regulations. DISCLAIMER: The above statement is an English Translation of certain parts Article 6.2 of the General Student Regulations of the University of Puerto Rico (Reglamento General de Estudiantes de la Universidad de Puerto Rico - Cert. JS 154 2010-2011). It was originally prepared by the Deanship of Academic Affairs of the Medical Sciences Campus, and revised and approved by the Academic Senate on March 2, 2017. In case of a discrepancy or disagreement with the original text in Spanish, the Spanish version will always prevail and be given priority.

Approved by the Academic Senate, Certification 049, 2016-2017.

# TITLE IX: NO DISCRIMINATION

The Medical Sciences Campus (MSC) of the University of Puerto Rico (UPR) does not discriminate in its academic offerings because of sex, race, color, age, national origin, political or religious ideas, gender, gender identity or expression, pregnancy, civil status, sexual orientation, ethnic origin or because of being a victim or be perceived as a victim of domestic violence, sexual assault, sexual harassment or stalking. This policy complies with federal statutes under Title IX, as amended, and related the institutional policies of the UPR. It is the duty of every member of the university community to notify any discrimination or complaint event before the Office of the Title IX Coordinator, telephone 787-758-2525, ext. 1368 or 1360, or accessing the web page www.rcm.upr.edu/tituloix.

Approved by the Academic Senate, Certification 035, 2018-2019, Amended.

**GRADING SYSTEM:** Academic achievement will be evaluated using a quantifiable grading system (A, B, C, D and F)

Minimum criteria: Student must pass the course with 80%, (B) or more.

#### UNIVERSIDAD DE PUERTO RICO VICEPRESIDENCIA DE ASUNTOS ACADÉMICOS E INVESTIGACIÓN

CERTIFICACIÓN NÚM. 42 2019-2020

#### SOLICITUD DE CAMBIOS EN CURSOS REGISTRADOS<sup>1</sup>

Unidad: Recinto de Ciencias Medicas

Facultad: Enfermería

Departamento/Programa: Gra

Graduado/ Doctorado en Ciencias en Enfermería

Codificación alfanumérica: \_\_\_\_\_\_ 8027

Título del curso:

Seminario I - Métodos de Investigación Mixta

| Este curso está enfocado en la investigación de métodos mixtos para<br>abordar preguntas de investigación empleando la combinación de<br>ambos enfoques cuantitativo y cualitativo. Una comprensión teórica<br>del método mixto introducirá a los estudiantes en los supuestos<br>filosóficos y componentes de los procedimientos de método mixto<br>para explorar y explicar fenómenos complejos en escenarios de<br>enfermería y salud. La integración de este enfoque proporcionará a<br>los estudiantes la oportunidad de desarrollar un proyecto de<br>investigación innovador que contribuirá a una comprensión global del<br>fenómeno de interés. |                                                 | abordar pregunta<br>los enfoques cual<br>método mixto intr<br>filosóficos y los co<br>mixtos para explo<br>de enfermería y c<br>estudiantes la opu<br>innovador que co | foca en la investigación de métodos mixtos para<br>is de investigación que emplean la combinación de<br>ntitativo y cualitativo. Una comprensión teórica del<br>oducirá a los estudiantes en los supuestos<br>omponentes de los procedimientos de métodos<br>orar y explicar fenómenos complejos en escenarios<br>suidados de salud. Este enfoque brindará a los<br>ortunidad de desarrollar un diseño de investigación<br>ntribuirá a una comprensión integral del fenómeno<br>so se impartirá utilizando la modalidad híbrida. |  |

| DESCRIPCIÓN ANTERIOR EN INGLÉS<br>This course focuses on the mixed method research to address<br>research questions employing the combination of both quantitative<br>and qualitative approaches. A theoretical understanding of mixed<br>method will introduce students in the philosophical assumptions and<br>components of mixed method procedures to explore and explain<br>complex phenomena in nursing and health care scenarios. The<br>integration of this approach will provide students the opportunity to<br>develop an innovative research design that will contribute to a<br>comprehensive understanding of the phenomenon of interest. |          | NUEVA DESCRIPCIÓN EN INGLÉS<br>This course focuses on the mixed method research to address<br>research questions employing the combination of both quantitative<br>and qualitative approaches. A theoretical understanding of mixed<br>method will introduce students in the philosophical assumptions and<br>components of mixed method procedures to explore and explain<br>complex phenomena in nursing and health care scenarios. ## **COURSE DESCRIPTION:**

This course is designed with the purpose of having students continue developing the knowledge, skills and attitudes necessary to become a nursing scientist. Through the advisement of their Dissertation Committee, students will prepare to orally defend their research proposal and submit it to the Institutional Review Board (IRB) and other relevant boards for their approval as required. The course will be taught using hybrid modality.

### LEARNING OBJETIVES:

- 1. Apply adequate strategies to complete the writing of the research proposal and submitting to the Dissertation Committee.
- 2. Organize research proposal according to Dissertation Committee recommendations and the Program's Dissertation Manual.
- 3. Submit approved proposal with the proper authorizations to the University of Puerto Rico, Medical Sciences Campus IRB and any other committee as required.
- 4. Propose a realistic plan in which cultural elements of the study population, timeline, and appropriate strategies are included to conduct the study once it has been orally defended and approved by the Dissertation Committee.

### COURSE MAIN TEXTBOOK:

None

# CONTENT OUTLINE AND TIME DISTRIBUTION:

| I.   | Practical considerations and strategies to complete the writing of the research proposal                                                                                              | 2 hrs. face-to-face<br>2 hrs. distance                                    |
|------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------|
| II.  | Meetings with Dissertation Committee chair and members<br>to obtain written/verbal feedback and organize research<br>proposal according to recommendations and Dissertation<br>Manual | 8 hrs. face-to-face<br>12 hrs. distance                                   |
| III. | Periodic meetings with Committee Chair and Dissertation<br>Committee to prepare the research proposal defense                                                                         | 4 hrs. face-to-face<br>8 hrs. distance                                    |
| IV.  | Information and documents required to submit the research proposal to the University of Puerto Rico, Medical Sciences Campus IRB and any other relevant boards                        | 6 hrs. distance                                                           |
| V.   | Research proposal submission for IRB evaluation process                                                                                                                               | 6 hrs. distance                                                           |
| VI.  | Elements to be considered to prepare a realistic work-plan<br>and timeline to conduct the research                                                                                    | 4 hrs. face-to-face                                                       |
| VII. | Conduct research study (begin data collection)<br>Total:                                                                                                                              | 20 hrs. distance<br>(72 hrs.)<br>18 hrs. face-to-face<br>54 hrs. distance |

# **INSTRUCTIONAL STRATEGIES:**

- Individual mentoring between the student and Dissertation Committee chair/members for research proposal defense (face-to-face or video meeting).
- Independent work where student will work on their Individual mentoring with Dissertation Committee chair and members to provide feedback, organize the research proposal and prepare the necessary documents to submit to the University of Puerto Rico, Medical Sciences Campus IRB and any other relevant boards (face-to-face or video meeting).

# LEARNING RESOURCES AND MINIMUM FACILITIES AVAILABLE OR REQUIRED:

- DNS Dissertation Manual
- Personal computer
- InFocus projector
- Internet access
- Video meeting application adopted by the Medical Sciences Campus
- MSC Library
- Center for Research and Evidence-Based Practice of the School of Nursing

## **EVALUATION TECHNIQUES:**

- Two dissertation competencies (design appropriate study and conduct research study) will be evaluated as well as three general competencies (critical thinking, writing, and presentation).
  - Written research proposal
  - Oral research proposal defense

# **REASONABLE MODIFICATION:**

Any student who presents a condition or health situation that qualifies him / her before the law to receive reasonable modification, has the right to make his request in writing in the Office of Services for Students with Disabilities (OSEI), following the procedure established in the document Request for Services and Reasonable Modification. A copy of this document is obtained in the OSEI Office, located on the third floor of the Dr. Guillermo Arbona Irizarry building, office B-349 (next to Medical Services for Students) and on the RCM's website in the Deanship of Students portal. The application does not exempt the student from fulfilling the academic requirements of the study programs.

CIPE - Amended and Updated on 02-07-2018.

## ACADEMIC INTEGRITY:

The University of Puerto Rico promotes the highest standards of academic and scientific integrity. Article 6.2 of the University of Puerto Rico General Student Regulations (Board of Trustees Certification 154 2010-2011) in section 6.2.1 defines Academic Dishonesty as: "Any form of dishonesty or lack of academic integrity, including, but not limited to, fraudulent actions, obtaining grades or degrees using false or fraudulent simulations. copying in whole or in part the academic work of another person, plagiarizing in whole or in part the work of another person, to copy in whole or in part the answers to the questions of an examination from another person, making or getting another person to take any oral or written test or examination on their behalf, as well as help or facilitate that another person incurs in said behavior". Section 6.2.2. defines Fraudulent Conduct as: "Conduct with intent to defraud, including, but not limited to, malicious alteration or falsification of grades, records, identification cards or other official documents of the University or any other institution. Any act or action of passing or circulating as genuine and true any of the documents specified above will also be subject to disciplinary sanction, knowing that they are false or altered". Any of these actions will be subject to disciplinary sanctions in accordance with the procedure established in the current University of Puerto Rico General Student Regulations. **DISCLAIMER**: The above statement is an English Translation of certain parts Article 6.2 of the General Student Regulations of the University of Puerto Rico (Reglamento General de Estudiantes de la Universidad de Puerto Rico – Cert. JS 154 2010-2011). It was originally prepared by the Deanship of Academic Affairs of the Medical Sciences Campus, and revised and approved by the Academic Senate on March 2, 2017. In case of a discrepancy or disagreement with the original text in Spanish, the Spanish version will always prevail and be given priority.

Approved by the Academic Senate, Certification 049, 2016-2017.

### TITLE IX: NO DISCRIMINATION

The Medical Sciences Campus (MSC) of the University of Puerto Rico (UPR) does not discriminate in its academic offerings because of sex, race, color, age, national origin, political or religious ideas, gender, gender identity or expression, pregnancy, civil status, sexual orientation, ethnic origin or because of being a victim or be perceived as a victim of domestic violence, sexual assault, sexual harassment or stalking. This policy complies with federal statutes under Title IX, as amended, and related the institutional policies of the UPR. It is the duty of every member of the university community to notify any discrimination or complaint event before the Office of the Title IX Coordinator, telephone 787-758-2525, ext. 1368 or 1360, or accessing the web page www.rcm.upr.edu/tituloix.

Approved by the Academic Senate, Certification 035, 2018-2019, Amended.

**GRADING SYSTEM:** Academic achievement is evaluated through a pass/not passed grade. In order to pass the candidate must accumulate a minimum of 80% in the standards and procedures document established for this process. If the student does not accumulate 80% he/she must enroll in this course once again.

Este curso está diseñado para que los estudiantes continúen desarrollando los conocimientos, habilidades y actitudes necesarias para poner en práctica su estudio de investigación. A través de la asesoría de su comité, los estudiantes se prepararán para defender oralmente su propuesta de tesis, aprobar el examen oral y presentar su propuesta a la Junta de Revisión Institucional y otras juntas pertinentes para su aprobación en la Institución. Este curso está diseñado con el propósito de proporcionar a los estudiantes la oportunidad de continuar desarrollando el conocimiento, las destrezas y actitudes necesarias para convertirse en un investigador en enfermería. A través de la asesoría de su Comité de Disertación, los estudiantes se prepararán para defender oralmente su propuesta de investigación y someterla a la Junta de Revisión Institucional (IRB, por sus siglas en inglés) y otras juntas relevantes para su aprobación, según sea necesario. El curso se impartirá utilizando la modalidad híbrida. SOLICITUD DE CAMBIOS EN CURSOS REGISTRADOS

| Motivo:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                   |                                                                                                                                                                                                                                              |                                     |  |
|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                   |                                                                                                                                                                                                                                              |                                     |  |

ENFE 8991- Doctoral Dissertation II Syllabus

### UNIVERSITY OF PUERTO RICO MEDICAL SCIENCES CAMPUS SCHOOL OF NURSING GRADUATE DEPARTMENT DOCTOR OF NURSING SCIENCES PROGRAM

## SYLLABUS

| TITLE:                | Doctoral Dissertation II                 |
|-----------------------|------------------------------------------|
| COURSE CODIFICATION:  | ENFE 8991                                |
| CREDIT/CONTACT HOURS: | 4 cr./4 hrs. per week (72 hrs. semester) |
| PRE-REQUISITES:       | ENFE 8990 - Doctoral Dissertation I      |
| CO-REQUISITES:        | None                                     |
| OTHER REQUIREMENTS:   | None                                     |

## **COURSE DESCRIPTION:**

This course is designed with the purpose of having students continue developing the knowledge, skills, and attitudes necessary in order to implement their research study. Students will conduct their research study including, data collection and analysis, synthesis of data, and making the appropriate extrapolations. The course will be taught using hybrid modality.

### LEARNING OBJETIVES:

- 1. Collect quantitative, qualitative, or mixed data.
- 2. Evaluate study findings using proper inductive/deductive argumentation according to the research paradigm.
- 3. Analyze data considering study limitations.
- 4. Demonstrates scientific integrity in the process of writing, defending and disseminating research findings

### **COURSE MAIN TEXTBOOK:**

None

# CONTENT OUTLINE AND TIME DISTRIBUTION:

|      |                                                                                                                                                                                                        | 18 hrs. face-to-face<br>54 hrs. distance |
|------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------|
|      | Total:                                                                                                                                                                                                 | (72 hrs.)                                |
| IV.  | Independent work collecting and analyzing data, writing the dissertation according to the specifications of the Program's Dissertation Manual                                                          | 52 hrs. distance                         |
| III. | Periodic meetings with Committee members                                                                                                                                                               | 10 hrs. face-to-face<br>2 hrs. distance  |
| II.  | Meetings with Dissertation Committee chair and<br>members in order to prepare a work-plan at the<br>beginning of the semester. This plan must include<br>specific objectives, activities and itinerary | 4 hrs. face-to-face                      |
| I.   | Practical considerations when writing the final chapters                                                                                                                                               | 4 hrs. face-to-face                      |

# **INSTRUCTIONAL STRATEGIES:**

- Individual mentoring with Dissertation Committee chair and members in order to discuss findings and recommendations.
- Initial discussion in order to examine practical considerations when writing the final chapters. Then monthly or more frequently discussions (as needed) to analyze situations that arise during the data collection, analysis of results, and writing.

# LEARNING RESOURCES AND MINIMUM FACILITIES AVAILABLE OR REQUIRED:

- DNS Dissertation Manual
- Personal computer
- Software for Qualitative or Quantitative Analysis
- InFocus projector
- Internet access
- Video meeting application adopted by the Medical Sciences Campus
- MSC Library
- Center for Research and Evidence-Based Practice of the School of Nursing

# **EVALUATION TECHNIQUES:**

- Three dissertation competencies (conduct research study, synthesize study findings, and extrapolate findings) will be evaluated as well as two general competencies (critical thinking and writing).
  - Dissertation document

# **REASONABLE MODIFICATION:**

Any student who presents a condition or health situation that qualifies him / her before the law to receive reasonable modification, has the right to make his request in writing in

the Office of Services for Students with Disabilities (OSEI), following the procedure established in the document Request for Services and Reasonable Modification. A copy of this document is obtained in the OSEI Office, located on the third floor of the Dr. Guillermo Arbona Irizarry building, office B-349 (next to Medical Services for Students) and on the RCM's website in the Deanship of Students portal. The application does not exempt the student from fulfilling the academic requirements of the study programs.

CIPE - Amended and Updated on 02-07-2018.

### **ACADEMIC INTEGRITY:**

The University of Puerto Rico promotes the highest standards of academic and scientific integrity. Article 6.2 of the University of Puerto Rico General Student Regulations (Board of Trustees Certification 154 2010-2011) in section 6.2.1 defines Academic Dishonesty as: "Any form of dishonesty or lack of academic integrity, including, but not limited to, fraudulent actions, obtaining grades or degrees using false or fraudulent simulations, copying in whole or in part the academic work of another person, plagiarizing in whole or in part the work of another person, to copy in whole or in part the answers to the questions of an examination from another person, making or getting another person to take any oral or written test or examination on their behalf, as well as help or facilitate that another person incurs in said behavior". Section 6.2.2. defines Fraudulent Conduct as: "Conduct with intent to defraud, including, but not limited to, malicious alteration or falsification of grades, records, identification cards or other official documents of the University or any other institution. Any act or action of passing or circulating as genuine and true any of the documents specified above will also be subject to disciplinary sanction, knowing that they are false or altered". Any of these actions will be subject to disciplinary sanctions in accordance with the procedure established in the current University of Puerto Rico General Student Regulations. DISCLAIMER: The above statement is an English Translation of certain parts Article 6.2 of the General Student Regulations of the University of Puerto Rico (Reglamento General de Estudiantes de la Universidad de Puerto Rico - Cert. JS 154 2010-2011). It was originally prepared by the Deanship of Academic Affairs of the Medical Sciences Campus, and revised and approved by the Academic Senate on March 2, 2017. In case of a discrepancy or disagreement with the original text in Spanish, the Spanish version will always prevail and be given priority. Approved by the Academic Senate, Certification 049, 2016-2017.

### TITLE IX: NO DISCRIMINATION

The Medical Sciences Campus (MSC) of the University of Puerto Rico (UPR) does not discriminate in its academic offerings because of sex, race, color, age, national origin, political or religious ideas, gender, gender identity or expression, pregnancy, civil status, sexual orientation, ethnic origin or because of being a victim or be perceived as a victim of domestic violence, sexual assault, sexual harassment or stalking. This policy complies with federal statutes under Title IX, as amended, and related the institutional policies of the UPR. It is the duty of every member of the university community to notify any discrimination or complaint event before the Office of the Title IX Coordinator, telephone 787-758-2525, ext. 1368 or 1360, or accessing the web page www.rcm.upr.edu/tituloix.

Approved by the Academic Senate, Certification 035, 2018-2019, Amended.

**GRADING SYSTEM:** Academic achievement is evaluated through a pass/not passed grade. In order to pass the candidate must accumulate a minimum of 80% in the Standards and Procedures document established for this process. If the student does not accumulate 80% he/she must enroll in this course once again.

| Este curso está diseñado con el propósito de que los estudiantes<br>continúen el desarrollo de los conocimientos, habilidades y actitudes<br>necesarias para convertirse en un científico de enfermería. Los<br>estudiantes realizarán su trabajo de investigación, incluyendo la<br>recopilación de datos y el análisis, la síntesis de los datos y hacer las<br>debidas extrapolaciones. Discutirán los hallazgos y conclusiones del<br>estudio, las contribuciones que representa para la teoría, la práctica y<br>la ciencia de enfermería. Luego de completar el documento<br>académico, defenderán oralmente la disertación y la presentarán por<br>escrito. |               | Este curso está diseñado con el propósito de proporcionar a los<br>estudiantes la oportunidad de continuar desarrollando el<br>conocimiento, las destrezas y actitudes necesarias para implementar<br>su estudio de investigación. Los estudiantes conducirán su estudio de<br>investigación, incluida la recopilación y análisis de datos, la síntesis<br>de datos y la realización de extrapolaciones apropiadas. El curso se<br>impartirá utilizando la modalidad híbrida. |                   |  |  |

ENFE 8XXX- Doctoral Dissertation III Syllabus

### UNIVERSITY OF PUERTO RICO MEDICAL SCIENCES CAMPUS SCHOOL OF NURSING GRADUATE DEPARTMENT DOCTOR OF NURSING SCIENCES PROGRAM

## SYLLABUS

| TITLE:                | Doctoral Dissertation III                 |
|-----------------------|-------------------------------------------|
| COURSE CODIFICATION:  | ENFE 8XXX (8992-sugested)                 |
| CREDIT/CONTACT HOURS: | 4 cr. /4 hrs. per week (72 hrs. semester) |
| PRE-REQUISITES:       | ENFE 8991 - Doctoral Dissertation II      |
| CO-REQUISITES:        | None                                      |
| OTHER REQUIREMENTS:   | None                                      |

## **COURSE DESCRIPTION:**

The course is designed with the purpose of providing students the opportunity to continue developing the knowledge, skills, and attitudes necessary to become a nurse scientist. They will discuss their study findings, conclusions, and the contributions that their study represents for theory, practice, and nursing science. Having completed a scholarly document, they will orally defend their dissertation as well as present it in a publication writing. The course will be taught using hybrid modality.

### LEARNING OBJETIVES:

- 1. Demonstrates scientific integrity in the process of dissertation writing.
- 2. Critic research findings using substantial scientific arguments.
- 3. Discuss study findings, conclusions and implications/ recommendations for health care and nursing discipline through oral dissertation defense.
- 4. Prepare an abstract and a manuscript to disseminate their dissertation research findings in a scientific forum and in a peer review scientific journal, respectively.

# **COURSE MAIN TEXTBOOK:**

None

# CONTENT OUTLINE AND TIME DISTRIBUTION:

|      | Total:                                                                                                                                                                                                                                          | (72 hr)<br>18 hrs. face-to-face<br>54 hrs. distance |
|------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------|
| V.   | Dissertation mock                                                                                                                                                                                                                               | 6 hrs. face-to-face                                 |
| IV.  | Elements to be considered to prepare an abstract and a manuscript to disseminate their dissertation research findings                                                                                                                           | 4 hrs. distance                                     |
| 111. | Independent work analyzing data and writing the dissertation according to the specifications of the Program's Dissertation Manual                                                                                                               | 36 hrs. distance                                    |
| II.  | Meetings with Dissertation Committee chair and members<br>to obtain written/verbal feedback about research findings<br>discussion, conclusions, implications and<br>recommendations for health care, theory, practice and<br>nursing discipline | 12 hrs. distance<br>12 hrs. face-to-face            |
| I.   | Practical considerations and scientific integrity in the process of dissertation writing, abstract, and manuscript                                                                                                                              | 4 hrs. distance                                     |

# **INSTRUCTIONAL STRATEGIES:**

- Seminars to discuss the considerations and scientific integrity in the process of dissertation writing, abstract, and manuscript
- Individual mentoring with Dissertation Committee chair and members to complete a scholarly document and prepare the oral dissertation defense.
- Dissertation mock

# LEARNING RESOURCES AND MINIMUM FACILITIES AVAILABLE OR REQUIRED:

- DNS Dissertation Manual
- Personal computer
- Software for Qualitative or Quantitative Analysis
- InFocus projector
- Internet access
- Video meeting application adopted by the Medical Sciences Campus
- MSC Library
- Center for Research and Evidence-Based Practice of the School of Nursing

### **EVALUATION TECHNIQUES:**

- Two dissertation competencies (synthesize study findings and extrapolate findings) will be evaluated as well as three general competencies (critical thinking, writing, and presentation).
  - Dissertation document

- Dissertation defense

# **REASONABLE MODIFICATION:**

Any student who presents a condition or health situation that qualifies him / her before the law to receive reasonable modification, has the right to make his request in writing in the Office of Services for Students with Disabilities (OSEI), following the procedure established in the document Request for Services and Reasonable Modification. A copy of this document is obtained in the OSEI Office, located on the third floor of the Dr. Guillermo Arbona Irizarry building, office B-349 (next to Medical Services for Students) and on the RCM's website in the Deanship of Students portal. The application does not exempt the student from fulfilling the academic requirements of the study programs.

## ACADEMIC INTEGRITY:

CIPE - Amended and Updated on 02-07-2018.

The University of Puerto Rico promotes the highest standards of academic and scientific integrity. Article 6.2 of the University of Puerto Rico General Student Regulations (Board of Trustees Certification 154 2010-2011) in section 6.2.1 defines Academic Dishonesty as: "Any form of dishonesty or lack of academic integrity, including, but not limited to, fraudulent actions, obtaining grades or degrees using false or fraudulent simulations, copying in whole or in part the academic work of another person, plagiarizing in whole or in part the work of another person, to copy in whole or in part the answers to the questions of an examination from another person, making or getting another person to take any oral or written test or examination on their behalf, as well as help or facilitate that another Section 6.2.2. defines Fraudulent Conduct as: person incurs in said behavior". "Conduct with intent to defraud, including, but not limited to, malicious alteration or falsification of grades, records, identification cards or other official documents of the University or any other institution. Any act or action of passing or circulating as genuine and true any of the documents specified above will also be subject to disciplinary sanction, knowing that they are false or altered". Any of these actions will be subject to disciplinary sanctions in accordance with the procedure established in the current University of Puerto Rico General Student Regulations. DISCLAIMER: The above statement is an English Translation of certain parts Article 6.2 of the General Student Regulations of the University of Puerto Rico (Reglamento General de Estudiantes de la Universidad de Puerto Rico - Cert. JS 154 2010-2011). It was originally prepared by the Deanship of Academic Affairs of the Medical Sciences Campus, and revised and approved by the Academic Senate on March 2, 2017. In case of a discrepancy or disagreement with the original text in Spanish, the Spanish version will always prevail and be given priority.

Approved by the Academic Senate, Certification 049, 2016-2017.

# TITLE IX: NO DISCRIMINATION

The Medical Sciences Campus (MSC) of the University of Puerto Rico (UPR) does not discriminate in its academic offerings because of sex, race, color, age, national origin, political or religious ideas, gender, gender identity or expression, pregnancy, civil status, sexual orientation, ethnic origin or because of being a victim or be perceived as a victim of domestic violence, sexual assault, sexual harassment or stalking. This policy complies with federal statutes under Title IX, as amended, and related the institutional policies of

the UPR. It is the duty of every member of the university community to notify any discrimination or complaint event before the Office of the Title IX Coordinator, telephone 787-758-2525, ext. 1368 or 1360, or accessing the web page <a href="https://www.rcm.upr.edu/tituloix">www.rcm.upr.edu/tituloix</a>.

Approved by the Academic Senate, Certification 035, 2018-2019, Amended.

**GRADING SYSTEM:** Academic achievement is evaluated through a pass/not passed grade. In order to pass the candidate must accumulate a minimum of 80% in the Standards and Procedures document established for this process. If the student does not accumulate 80% he/she must enroll in this course once again.

<sup>17</sup> Descripción del curso en español (que no exceda 1,000 caracteres):

El curso está diseñado con el propósito de proporcionar a los estudiantes la oportunidad de continuar desarrollando el conocimiento, las destrezas y actitudes necesarias para convertirse en un investigador en enfermería. Discutirán los hallazgos de su estudio, las conclusiones y las contribuciones que su estudio representa para la teoría, la práctica y la ciencia de enfermería. Después de completar un documento académico, defenderán oralmente su disertación y la presentarán en una publicación escrita. El curso se impartirá utilizando la modalidad híbrida.

#### Descripción del curso en inglés (que no exceda 1,000 caracteres):

The course is designed with the purpose of providing students the opportunity to continue developing the knowledge, skills, and attitudes necessary to become a nurse scientist. They will discuss their study findings, conclusions, and the contributions that their study represents for theory, practice, and nursing science. Having completed a scholarly document, they will orally defend their dissertation as well as present it in a publication writing. The course will be taught using hybrid modality.

ENFE 8017- Independent Study Syllabus

## UNIVERSITY OF PUERTO RICO MEDICAL SCIENCES CAMPUS SCHOOL OF NURSING GRADUATE DEPARTMENT DOCTOR OF NURSING SCIENCES PROGRAM

# SYLLABUS

| TITLE:                | Independent Study    |
|-----------------------|----------------------|
| COURSE CODIFICATION:  | NURS 8017            |
| CREDIT/CONTACT HOURS: | 3 Credits (54 hours) |
| PRE-REQUISITES:       | None                 |
| CO-REQUISITES:        | None                 |
| OTHER REQUIREMENTS:   | None                 |

# **COURSE DESCRIPTION:**

This course provides the student the opportunity to work independently in order to develop a scholarly work in an area of research interest under the supervision of a faculty assigned to the course. Among the activities to be performed the student can select secondary analysis with information from a database, review of the literature of a phenomenon of interest, or instrument validation.

### LEARNING OBJETIVES:

 It is expected that when completing this course each student will prepare a scholarly writing to submit to publication based on one of the following activities: secondary analysis, literature revision of their phenomenon of interest or validation of instruments.

### COURSE MAIN TEXTBOOK:

None

### CONTENT OUTLINE AND TIME DISTRIBUTION:

I. It will depend on the activity selected by the student. The 54hrs. student will develop a sketch of the content to be included with the approval of the assigned faculty or mentor.

# INSTRUCTIONAL STRATEGIES:

- Independent Study
- Mentorship

# LEARNING RESOURCES AND MINIMUM FACILITIES AVAILABLE OR REQUIRED:

- Develop a work plan that includes: Comprehensive literature review Evidence of integration of research concepts and statistics Consulting with statistics experts if apply and editors Complete the process established by the selected journal for the publication process.
- Learning resources required are: Statistical package Research database Personnel computer Institutional email account

### **EVALUATION TECHNIQUES:**

 Article ready to be submitted to an arbitrated journal......100%

# **REASONABLE MODIFICATION:**

Any student who presents a condition or health situation that gualifies him / her before the law to receive reasonable modification, has the right to make his request in writing in the Office of Services for Students with Disabilities (OSEI), following the procedure established in the document Request for Services and Reasonable Modification. A copy of this document is obtained in the OSEI Office, located on the third floor of the Dr. Guillermo Arbona Irizarry building, office B-349 (next to Medical Services for Students) and on the RCM's website in the Deanship of Students portal. The application does not exempt the student from fulfilling the academic requirements of the study programs.

CIPE - Amended and Updated on 02-07-2018.

### **ACADEMIC INTEGRITY:**

The University of Puerto Rico promotes the highest standards of academic and scientific integrity. Article 6.2 of the University of Puerto Rico General Student Regulations (Board of Trustees Certification 154 2010-2011) in section 6.2.1 defines Academic Dishonesty as: "Any form of dishonesty or lack of academic integrity, including, but not limited to,

fraudulent actions, obtaining grades or degrees using false or fraudulent simulations, copying in whole or in part the academic work of another person, plagiarizing in whole or in part the work of another person, to copy in whole or in part the answers to the questions of an examination from another person, making or getting another person to take any oral or written test or examination on their behalf, as well as help or facilitate that another person incurs in said behavior". Section 6.2.2. defines Fraudulent Conduct as: "Conduct with intent to defraud, including, but not limited to, malicious alteration or falsification of grades, records, identification cards or other official documents of the University or any other institution. Any act or action of passing or circulating as genuine and true any of the documents specified above will also be subject to disciplinary sanction, knowing that they are false or altered". Any of these actions will be subject to disciplinary sanctions in accordance with the procedure established in the current University of Puerto Rico General Student Regulations. **DISCLAIMER**: The above statement is an English Translation of certain parts Article 6.2 of the General Student Regulations of the University of Puerto Rico (Reglamento General de Estudiantes de la Universidad de Puerto Rico - Cert. JS 154 2010-2011). It was originally prepared by the Deanship of Academic Affairs of the Medical Sciences Campus, and revised and approved by the Academic Senate on March 2, 2017. In case of a discrepancy or disagreement with the original text in Spanish, the Spanish version will always prevail and be given priority. Approved by the Academic Senate, Certification 049, 2016-2017.

# TITLE IX: NO DISCRIMINATION

The Medical Sciences Campus (MSC) of the University of Puerto Rico (UPR) does not discriminate in its academic offerings because of sex, race, color, age, national origin, political or religious ideas, gender, gender identity or expression, pregnancy, civil status, sexual orientation, ethnic origin or because of being a victim or be perceived as a victim of domestic violence, sexual assault, sexual harassment or stalking. This policy complies with federal statutes under Title IX, as amended, and related the institutional policies of the UPR. It is the duty of every member of the university community to notify any discrimination or complaint event before the Office of the Title IX Coordinator, telephone 787-758-2525, ext. 1368 or 1360, or accessing the web page <a href="https://www.rcm.upr.edu/tituloix">www.rcm.upr.edu/tituloix</a>. Approved by the Academic Senate, Certification 035, 2018-2019, Amended.

### **GRADING SYSTEM:**

| 100% - 90%  | = A                                                        |
