10/01/19-8/31/2024 (Funded)**

Training the Next Generation of Hispanic Cancer Researchers

Role: Director Research Education Core

Main aims: to encourage Hispanic science and medical students to pursue careers in cancer research and strengthen cancer research at the University of Puerto Rico (UPR). The UPR, through its Puerto Rico Cancer Center (PRCCC), is conducting the training program with The University of Texas M. D. Anderson Cancer Center in several areas - biomedical research enrichment experiences, M.D./Ph.D. training, and postgraduate clinical training and career development.

PREVIOUS FUNDED RESEARCH PROJECTS

Sponsor: RAND Corporation – President’s Office Grant (supported by alumni donations) 02/15/2019 – 02/14/2020 (Funded)

“Engaging NGOs of Puerto Rico in Disaster Recuperation”

Role: Principal Investigator(PI) at UPR

This projects’ main goal is to disseminate among a group NGOs of Puerto Rico information about the courses of action delineated in the Puerto Rico’s recuperation plan (August 2008). A course of action implies policy, program, strategy or activity targeted to mitigate damages caused by disasters and, accomplishing the reconstruction and financial recuperation of Puerto Rico. These courses of action cover a diverse scope of sectors, such as, capacity building and planning, health, economy, natural resources, housing, transportation, municipalities, education, water and energy, among others. The project consists of direct conversations with groups of NGOs. Due to the pandemic, these “conversatorios” are being held through a virtual meetings’ platform. These “conversatorios” are also being recorded and will be posted on RAND, local foundations and NGOs websites.
